**The Art of Dying** Rob Moll, 2021-04-06 Christians can have confidence that because death is not the end preparing to die helps us truly live In this well researched and pastorally sensitive book Rob Moll explores the Christian practice of dying well giving guidance for those who care for the dying as well as for those who grieve This expanded edition includes a new afterword by Rob s wife Clarissa reflecting on his life death and legacy Life, Death, and Subjectivity Stan van Hooft, 2004 This book presents an exploration of concepts central to health care practice In exploring such concepts as Subjectivity Life Personhood and Death in deep philosophical terms the book aims to draw out the ethical demands that arise when we encounter these phenomena and also the moral resources of health care workers for meeting those demands The series Values in Bioethics makes available original philosophical books in all areas of bioethics including medical and nursing ethics health care ethics research ethics environmental ethics and global bioethics

**Goddess and God in the World** Carol P. Christ, Judith Plaskow, 2016-08-01 In Goddess and God in the World leading theologians Carol P Christ and Judith Plaskow debate the nature of divinity proposing a new method called embodied theology They agree that the transcendent omnipotent male God of traditional theology must be reimagined Carol proposes that Goddess is the intelligent embodied love that is in all being Judith counters that God is an impersonal power of creativity that includes both good and evil Rooting their views in experience and questioning each other they offer a fruitful model of theological conversation across difference

**The Modern Art of Dying** Shai J. Lavi, 2009-01-10 How we die reveals much about how we live In this provocative book Shai Lavi traces the history of euthanasia in the United States to show how changing attitudes toward death reflect new and troubling ways of experiencing pain hope and freedom Lavi begins with the historical meaning of euthanasia as signifying an easeful death Over time he shows the term came to mean a death blessed by the grace of God and later medical hastening of death Lavi illustrates these changes with compelling accounts of changes at the deathbed He takes us from early nineteenth century deathbeds governed by religion through the medicalization of death with the physician presiding over the deathbed to the legalization of physician assisted suicide Unlike previous books which have focused on law and technique as explanations for the rise of euthanasia this book asks why law and technique have come to play such a central role in the way we die What is at stake in the modern way of dying is not human progress but rather a fundamental change in the way we experience life in the face of death Lavi argues In attempting to gain control over death he maintains we may unintentionally have ceded control to policy makers and bio scientific enterprises
