South Coblin, 2023-12-31 Phags pa Chinese is the earliest form of the Chinese language to be written in a systematically devised alphabetic script It is named after its creator a brilliant thirteenth century Tibetan scholar monk who also served as political adviser to Kublai Khan Phags pa s invention of an alphabet for the Mongolian language remains an extraordinarily important accomplishment both conceptually and practically With it he achieved nothing less than the creation of a unified script for all of the numerous peoples in the Mongolian empire including the Central Asian Turks and Sinitic speaking Chinese Phags pa is of immense importance for the study of premodern Chinese phonology However the script is difficult to read and interpret and secondary materials on it are scattered and not easily obtained The present book is intended as a practical introduction to Phags pa Chinese studies and a guide for reading and interpreting the script It consists of two parts The first part is an introductory section comprising four chapters This is followed by a glossary of Phags pa Chinese forms and their corresponding Chinese characters together with pinyin and stroke order indexes to those characters The first introductory chapter outlines the invention of the Phags pa

writing system summarizes the major types of material preserved in it and describes the historical and linguistic contexts in which this invention occurred Following chapters detail the history of Phags pa studies the alphabet and its interpretation and the salient features of the underlying sound system represented by the script comparing it with those of various later forms of Chinese that have been recorded in alphabetic sources A Handbook of Phags pa Chinese will be of special interest to Chinese historical phonologists and scholars concerned with the history and culture of China and Central Asia during the Yuan period A D 1279 1368 *To-day*, 1917 **Winds of God** Hamilton Drummond, 1913 Moscow in Flames Григорий Петрович Данилевский, 1917 **World Dictionaries in Print 1983**, 1983 Minimal Old Chinese and Later Han Chinese Axel Schuessler, 2023-12-31 Although long out of date Bernard Karlgren's 1957 remains the most convenient work for looking up Middle Chinese ca A D 600 and Old Chinese before 200 B C reconstructions of all graphs that occur in literature from the beginning of writing ca 1250 B C down to the third century B C In the present volume Axel Schuessler provides a more current reconstruction of Old Chinese limiting it as far as possible to those post Karlgrenian phonological features of Old Chinese that enjoy some consensus among today's investigators At the same time the updating of the material disregards more speculative theories and proposals Schuessler refers to these minimal forms as Minimal Old Chinese OCM He bases OCM on Baxter's 1992 reconstructions but with some changes mostly notational In keeping with its minimal aspect the OCM forms are kept as simple as possible and transcribed in an equally simple notation Some issues in Old Chinese phonology still await clarification hence interpolations and proposals of limited currency appear in this update Karlgren's Middle Chinese reconstructions as emended by Li Fang kuei are widely cited as points of reference for historical forms of Chinese as well as dialects This emended Middle Chinese is also supplied by Schuessler Another important addition to Karlgren's work is an intermediate layer midway between the Old and Middle Chinese periods known as Later Han Chinese ca second century A D The additional layer makes this volume a useful resource for those working on Han sources especially poetry This book is intended as a companion to the original *Grammata Serica Recensa* and therefore does not repeat other information provided there Matters such as English glosses and references to the earliest occurrence of a graph can be looked up in *Grammata Serica Recensa* itself or in other relevant dictionaries The great accomplishment of this companion volume is to update an essential reference and thereby fulfill the need for an accessible and user friendly source for citing the various historically reconstructed stages of Chinese **The Nation and the Athenaeum**, 1920
