Literature-based Instruction with English Language Learners, K-12 Nancy L. Hadaway, Sylvia M. Vardell, Terrell A. Young, 2002 This book takes a literature based approach to how children learn language and how it is

taught in today's diverse K-12 classrooms. The material is based on the belief that literature offers the most effective instructional approach for English language learners. The book offers meaningful reading, writing, speaking, and listening activities as well as new understandings about the forms and functions of written language. This is the first book that offers instructors guidance in expanding the range of materials they use for teaching ESL by going beyond the standard texts to include books of all kinds: children's literature, trade books, magazines, and other media. Voices from the Classroom: Scenarios from K-12 classrooms with English language learners are provided throughout the chapters, offering practical stories from teachers' points of view.

Teach Yourself the Basics of Aspen Plus Ralph Schefflan, 2011-04-12. Aspen Plus is one of the most popular process simulation software programs used industrially and academically. Though the software is available at many corporations and universities, there are no textbooks which are dedicated to teaching the step-by-step use of the software. This book is designed to fill that need. The structure of the book is unique in that it emulates a lecture/workshop classroom environment. Each chapter starts with the equivalent of a classroom lecture followed by workshops which provide experience in the chapter's subject matter. The enclosed CD contains solutions both in Aspen Plus and text formats to examples imbedded in the text, as well as to all the workshops. There are also notes at the end of each chapter designed to aid readers that have difficulty with the workshops. Note: CD, ROM, DVD, and other supplementary materials are not included as part of eBook file.
