Breakdown Of Austin Rover:

The Breakdown of Austin Rover Karel Williams, John L. Williams, Colin Haslam, 1987-01-01 *The Official History of Privatisation, Vol. II* David Parker, 2013-06-19 This is Volume II of Professor Parker's authoritative Official History of Privatisation covering the period from the re-election of Margaret Thatcher in 1987 to the election of Tony Blair in 1997. Volume II considers in detail several of the major privatisations including those of airports, steel, water, electricity, coal, and the railways, as well as a number of smaller ones. Each privatisation involved major challenges in terms of industrial restructuring, organising successful sales, and in a number of cases establishing effective regulatory regimes. The policy evolved and new methods of selling and regulating were put in place that enabled further disposals to occur. Monolithic nationalised industries with their emphasis on the benefits of economies of scale, vertical integration, and rationalisation were replaced by industrial structures rooted in the importance of commercial management, risk taking, and competition. In government departments and parts of the National Health Service, direct employees were replaced by private contractors, and private investment became a characteristic of public infrastructure in the form of PFI/PPP schemes. This study draws heavily on the official records of the British government to which the author was given full access, and on interviews with the leading figures involved in each of the privatisations, including ex-ministers, civil servants, business, and City figures, as well as academics that have studied the subject. This book will be of great interest to students of privatisation, British political history, and of business and economics in general.

The Official History of Privatisation David Parker, 2009 Drawing on the records of the British Government, this first volume studies the background to privatisation and the privatisations that took place during the two Conservative Governments led by Margaret Thatcher from 1979 to 1987. Vol 1 [International Bibliography of Business History](#) Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years. There is less interest in the traditional company-centred approach and more concern about the wider business context. With the growth of multi-national corporations in the 1980s, international and inter-firm comparisons have gained in importance. In addition, there has been a move towards improving links with mainstream economic, financial, and social history through techniques and outlook. The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field. The Bibliography is a unique volume which covers the depth and breadth of research in business history. This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians.
