Breaking The Sequence Womens Experimental Fiction:

Breaking the Sequence Ellen G. Friedman, Miriam Fuchs, 2014-07-14 These nineteen essays introduce the rich and until now largely unexplored tradition of women's experimental fiction in the twentieth century. The writers discussed here range from Gertrude Stein to Christine Brooke Rose and include among others Virginia Woolf, Jean Rhys, Jane Bowles, Marguerite Young, Eva Figes, Joyce Carol Oates, and Marguerite Duras. Friedman and Fuchs demonstrate the breadth of their research first in their introduction to the volume in which they outline the history of the reception of women's experimental fiction and analyze and categorize the work not only of the writers to whom essays are devoted but of a number of others too, and second in an extensive and wonderfully useful bibliography. Emma Kafalenos, *The International Fiction Review*. After an introduction that is practically itself a monograph, eighteen essayists, too many of them distinguished to allow an equitable sampling, take up three generations of postmodernists. American Literature. The editors see this volume as part of the continuing feminist project of the recovery and foregrounding of women writers. Friedman and Fuchs's substantive introduction excellently synthesizes the issues presented in the rest of the volume. Patrick D. Murphy, *Studies in the Humanities*. Originally published in 1989, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

(Sem)Erotics Elizabeth Meese, 1992-07 What is at stake in the production of experimental texts by lesbian writers? What motivates these writers and characterizes their work? In this work Elizabeth Meese examines the ways in which the experiences of the text and the experiences of character diverge and converge with the writer's own biography.

Women's Studies Linda Krikos, Cindy Ingold, 2004-08-30 This truly monumental work maps the literature of women's studies covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999. Intended as a reference and collection development tool, this bibliography provides a guide for women's studies information for each title along with a detailed, often evaluative review. The annotations summarize each work's content, its importance or contribution to women's studies, and its relationship to other titles on the subject. Core titles and titles that are out of print are noted, and reviews indicate which titles are appropriate as texts or supplemental texts. This definitive guide to the literature of women's studies is a must purchase for academic libraries that support women's studies programs, and it is a useful addition to any academic or public library that endeavors to represent the field. The Cambridge Companion to British Fiction, 1945-2010 David James, 2015-10-06. The Cambridge Companion to British Fiction since 1945 provides insight into the critical traditions shaping the literary landscape of modern Britain.

The Cambridge Companion to Modernist Women Writers Maren Tova Linett, 2010-09-23. Women played a central role in literary modernism, theorizing, debating, writing, and publishing the critical and imaginative work that resulted in a new literary culture during the early twentieth century. This volume provides a thorough overview of the main genres, the important issues, and the key figures in women's writing during the years 1890-1945. The essays treat the work of Woolf, Stein, Cather, H. D., Barnes, Hurston, and many others in detail; they also explore women's salons, little magazines, activism, photography, film, criticism, and dance. Written especially for this Companion, these lively essays introduce students and scholars to the vibrant field of women's modernism.

Utterly Other Discourse Ellen G. Friedman, Richard Martin, 1995. The British novelist and critic Christine Brooke Rose, born 1923, is increasingly being regarded as one of the most significant writers of the contemporary period. In her dozen novels, she has explored themes as diverse as bilingualism as a metaphor for alienation and the influence of computer technology on the humanities. As these themes suggest, Brooke Rose is sometimes perceived as a difficult writer, especially given the dazzling virtuosity of the linguistic wordplay that enlivens her later novels. *Utterly Other Discourse*, a phrase from her 1984 novel *Amalgamemnon*, provides a valuable introduction to her work in fifteen essays, some previously published, some written for this book. Scholars from America, England, and Europe examine her work from a variety of critical angles.

Marguerite Young, Our Darling Miriam Fuchs, 1994. With *Miss MacIntosh, My Darling* (1965), Marguerite Young established herself as one of the greatest writers of our time, and yet she has been slow to attract critical attention. Miriam Fuchs remedies that defect with the first book-length study of her work, a gathering of personal reminiscences and appreciative essays that explore the breadth of Young's achievement. Part 1 consists of tributes and recollections by such writers as Anne Tyler, Amy Clampitt, Stanley Kunitz, Anna Balakian, among other friends and students. Part 2 offers a dozen critical essays on her work, from *Angel in the Forest* to Young's forthcoming biography of Eugene Debs, with special attention to the wonders of *Miss MacIntosh, My Darling*. Part 3 consists of two interviews with Young. Also included are a dozen photos, most published here for the first time, and a chronology by Martha J. Sattler.
