

TREATMENT PLANNING FOR BREAST CANCER

BREAST CANCER

Most common form of cancer among women in Malaysia.

IN 2020,

Breast cancer has been ranked first in the incidence and prevalence rate of cancer among Malaysians.

- Global Cancer Observatory

Breast cancer develops in the breast when the cells in the lobules (milk producing glands) or the ducts becomes abnormal and divide uncontrollably.

This disease occurs almost entirely in women, but men can get breast cancer too.

Breast lumps are either benign or malignant.

Benign or non-cancerous breast tumours are abnormal growths which do not spread outside of the breast and are usually non-life-threatening.

MALIGNANT BREAST TUMOURS

are cancerous in which it grows in or around the breast tissue.

Any breast lump or changes needs to be examined by a health care professional to determine if it is benign or malignant (cancerous) and whether it may contribute to the risk of developing cancer in the future.

As with most cancers, the earlier the breast cancer is detected and diagnosed, the better the chances for a successful treatment.

Breast Cancer Management

SJ Ball

Breast Cancer Management:

Eventually, you will unconditionally discover a new experience and skill by spending more cash. yet when? attain you take on that you require to get those every needs later having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will lead you to understand even more approaching the globe, experience, some places, when history, amusement, and a lot more?

It is your unconditionally own times to accomplishment reviewing habit. in the middle of guides you could enjoy now is **Breast Cancer Management** below.
