Southern England and its link to slavery on Louisianan plantations Other walks uncover the historical impact of sugar profits on the Scottish isles and 18th century tobacco imports on an English coastal port The history of these countryside locations and the people who lived and worked in them is closely bound up with colonial rule in far away continents Accompanying the author on her walks are a fascinating group of people artists musicians and writers with strong attachments to the landscapes featured in this book and family links to former British colonies like Barbados and Senegal These companions illuminate the meaning of colonial history in local settings Crucially this is not just a history book but a compassionate reflection on the way we respond to sensitive shared histories which link people across cultures generations and political divides
