

## Sets of Numbers

- The **natural numbers** are the set of numbers used when counting; these are the numbers  $\{1, 2, 3, 4, 5, \dots\}$ .
- The **whole numbers** are the set of natural numbers and zero; these are the numbers  $\{0, 1, 2, 3, 4, 5, \dots\}$ .
- The **integers** are the set of whole numbers and their opposites; these are the numbers  $\{\dots, -3, -2, -1, 0, 1, 2, 3, \dots\}$ .
- The **rational numbers** are the set of numbers that can be expressed as a fraction of two integers where the denominator is not zero. Rational numbers include the set of natural numbers, whole numbers, and integers.

EX:  $-1, \frac{2}{3}, 0, 2, \sqrt{16}, 2\frac{1}{2}, 0.8\bar{3}, 2.35$

- The **irrational numbers** are the set of numbers that cannot be expressed as a fraction of two integers.

EX:  $\pi, \sqrt{2}, \sqrt[3]{10}$

- The **real numbers** are the set of rational numbers and irrational numbers.

EX:  $-1, \pi, \frac{1}{2}, \sqrt{5}, \sqrt[3]{64}, 0.125, \sqrt[3]{27}, 0.7$

- The **imaginary numbers** are the set of square roots of negative numbers, written in the form  $bi$ , where  $i$  is a nonzero real number and  $b = \sqrt{-b^2}$ .

EX:  $-1, 1, 3i, \sqrt{-16}, -\sqrt{-100}$

- The **complex numbers** are the set of real numbers plus an imaginary number, written in the form  $a + bi$ , where  $a$  and  $b$  are real numbers and  $i = \sqrt{-1}$ .

EX:  $8 + 2i, -6 + i, -4 - 3i, 7 - 6i, 0$

## Solving Equations

When you perform the same operation to each side of an equation, the result is a new equation that has the same solution. Equations that have the same solution(s) are **equivalent equations**.

### Using the Addition Property of Equality

The **Addition Property of Equality** states that when the same number is added to equal numbers, the sums are equal.

**RULE:** If  $a$ ,  $b$ , and  $c$  are any real numbers and  $a = b$ , then  $a + c = b + c$ .

EX:  $2 + 7 = 2 + 7$

Applying this property to equations, when the same number is added to each side of an equation, the result is an equivalent equation.

EX: If  $x - 2 = 11$ , then  $x - 2 + 2 = 11 + 2$ , or  $x = 13$

### Using the Subtraction Property of Equality

The **Subtraction Property of Equality** states that when the same number is subtracted from equal numbers, the differences are equal.

**RULE:** If  $a$ ,  $b$ , and  $c$  are any real numbers and  $a = b$ , then  $a - c = b - c$ .

EX:  $12 - 6 = 12 - 6$

Applying this property to equations, when the same number is subtracted from each side of an equation, the result is an equivalent equation.

EX: If  $y + 7 = 15$ , then  $y + 7 - 7 = 15 - 7$ , or  $y = 8$ .

## Using the Multiplication Property of Equality

The **Multiplication Property of Equality** states that when equal numbers are multiplied by the same number, the products are equal.

**RULE:** If  $a$ ,  $b$ , and  $c$  are any real numbers and  $a = b$ , then  $ac = bc$ .

EX:  $3 \cdot 4 = 3 \cdot 4$

Applying this property to equations, when both sides of an equation are multiplied by the same real number, the result is an equivalent equation.

EX: If  $\frac{x}{4} = 3$ , then  $\left(\frac{x}{4}\right) \cdot 4 = 3 \cdot 4$ , or  $x = 12$

## Using the Division Property of Equality

The **Division Property of Equality** states that when equal numbers are divided by the same nonzero number, the quotients are equal.

**RULE:** If  $a$ ,  $b$ , and  $c$  are any real numbers,  $c \neq 0$ , and

$a = b$ , then  $\frac{a}{c} = \frac{b}{c}$

EX:  $\frac{12}{3} = \frac{12}{3}$

Applying this property to equations, when both sides of an equation are divided by the same nonzero real number, the result is an equivalent equation.

EX: If  $7x = 21$ , then  $\frac{7x}{7} = \frac{21}{7}$ , or  $x = 3$

## Solving Multistep Equations

Some equations require more than one inverse operation to solve. The goal when solving a multistep equation is to isolate the variable (i.e., get it by itself). To do this, use the properties of equality. If there are like terms on one side of an equation, they should be combined before using the properties.

EX: Solve the equation  $5x + 3x - 1 = 15$

a.  $5x + 3x - 1 = 15$

b.  $8x - 1 = 15$

c.  $8x - 1 + 1 = 15 + 1$

d.  $8x = 16$

e.  $\frac{8x}{8} = \frac{16}{8}$

f.  $x = 2$

- Original equation
- Combine like terms.
- Use the Addition Property of Equality to isolate the variable and combine like terms.
- Simplify.
- Use the Division Property of Equality to isolate the variable.
- Simplify.

## Variables on Both Sides

When an equation has variables on both sides, the objective is to get all variable terms on the same side of the equation by using either the Addition or Subtraction Property of Equality.

EX: Solve the equation  $4x - 8 = 2x$

a.  $4x - 8 = 2x$

b.  $4x - 2x - 8 = 2x - 2x$

c.  $4x - 8 = 0$

d.  $4x - 8 + 8 = 0 + 8$

e.  $4x = 8$

f.  $\frac{4x}{4} = \frac{8}{4}$

g.  $x = 2$

- Original equation
- Use the Subtraction Property of Equality to move the variable term to one side.
- Simplify.
- Use the Addition Property of Equality to isolate the variable term.
- Simplify.
- Use the Division Property of Equality to isolate the variable.
- Simplify.

## Solving Absolute Value Equations

The **absolute value** of a number is its distance from zero on the number line. Therefore, the equation  $|x| = 4$  has two solutions, 4 and  $-4$ , since both have a distance of 4 units from zero on the number line.

To solve an equation  $|4x| = 8$ , where 8 is a positive number, solve the disjunction  $x = 2$  or  $x = -2$ .

EX: Solve the equation  $|x + 3| = 3$

a.  $|x + 3| = 3$

b.  $x + 3 = 3$  or  $x + 3 = -3$

c.  $x + 3 - 3 = 3 - 3$  or

$x + 3 - 3 = -3 - 3$

d.  $x = 0$  or  $x = -6$

- Original equation
- Write a disjunction.
- Use the Subtraction Property of Equality to isolate the variable.
- Simplify.

## Solving Inequalities

An **inequality** shows the relationship between two numbers or expressions. The solution of an inequality is the set of numbers that make the inequality true.

### Addition & Subtraction Properties

The **Addition and Subtraction Properties of Inequality** state that adding or subtracting the same number on each side of an inequality produces an equivalent inequality. If  $a$ ,  $b$ , and  $c$  are real numbers, then the following are true:

- Addition Property of Inequality:** If  $a < b$ , then  $a + c < b + c$ ; if  $a < b$ , then  $a + c > b + c$ .
  - Subtraction Property of Inequality:** If  $a < b$ , then  $a - c < b - c$ ; if  $a < b$ , then  $a - c > b - c$ .
- NOTE: That similar statements hold true for  $>$  and  $\geq$ .

### NUMERIC EXAMPLES

**Addition Property of Inequality:** Since  $4 < 2$ , then

$4 + 3 < 2 + 3$ , since  $3 > 0$ , then  $3 + 4 < 3 + 2$ .

**Subtraction Property of Inequality:** Since  $9 < 3$ , then

$9 - 2 < 3 - 2$ , since  $-2 < 0$ , then  $4 - 2 < 7 - 2$ .

### ALGEBRAIC EXAMPLES

**Addition Property of Inequality:** If  $p - 3 < 11$ , then

$p - 3 + 3 < 11 + 3$ , or  $p < 14$ .

**Subtraction Property of Inequality:** If  $a + 9 < 16$ , then

$a + 9 - 9 < 16 - 9$ , or  $a < 7$ .

The **Multiplication and Division Properties of Inequality** state that multiplying or dividing each side of an inequality by a positive number makes an equivalent inequality. These properties also state that multiplying or dividing each side of an inequality by a negative number and reversing the direction of the inequality symbol makes an equivalent inequality.

If  $a$ ,  $b$ , and  $c$  are real numbers,

If $a < b$ , then $ac$ is positive	If $a < b$ , then $ac$ is negative
If $a < b$ , then $ac < bc$	If $a < b$ , then $ac > bc$
If $a < b$ , then $ac > bc$	If $a < b$ , then $ac < bc$

NOTE: That similar statements hold true for  $>$  and  $\geq$ .

### NUMERIC EXAMPLES

**Multiplication Property of Inequality:**

Since  $2 < 5$ , then  $2 \cdot 3 < 5 \cdot 3$ , since  $3 > 0$ , then

$2 \cdot (-3) < 5 \cdot (-3)$ .

Since  $6 < 4$ , then  $6 \cdot 4 < 4 \cdot 4$ , since  $4 > 0$ , then

$4 \cdot (-6) < 4 \cdot (-4)$ .

**Division Property of Inequality:**

Since  $4 < 6$ , then  $\frac{4}{2} < \frac{6}{2}$ , since  $2 > 0$ , then  $\frac{4}{-2} > \frac{6}{-2}$

Since  $9 < 3$ , then  $\frac{9}{3} > \frac{3}{3}$ , since  $3 > 0$ , then  $\frac{9}{-3} < \frac{3}{-3}$

# Brief Course In College Algebra

**Walter Burton Ford**

## **Brief Course In College Algebra:**

Brief Course In College Algebra: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have enthralled audiences this year. Brief Course In College Algebra : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Brief Course In College Algebra : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.

### **Brief Course In College Algebra Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Brief Course In College Algebra has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Brief Course In College Algebra has opened up a world of possibilities. Downloading Brief Course In College Algebra provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate

access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Brief Course In College Algebra has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Brief Course In College Algebra. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Brief Course In College Algebra. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Brief Course In College Algebra, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Brief Course In College Algebra has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### **FAQs About Brief Course In College Algebra Books**

1. Where can I buy Brief Course In College Algebra books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback:

- Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Brief Course In College Algebra book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
  4. How do I take care of Brief Course In College Algebra books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
  5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
  6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
  7. What are Brief Course In College Algebra audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
  8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
  9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
  10. Can I read Brief Course In College Algebra books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
