Civil Defense Begins At Home:

Civil Defense Begins at Home Laura McEnaney, 2020-10-06 Dad built a bomb shelter in the backyard Mom stocked the survival kit in the basement and the kids practiced ducking under their desks at school This was family life in the new era of the A bomb This was civil defense In this provocative work of social and political history Laura McEnaney takes us into the secretive world of defense planners and the homes of ordinary citizens to explore how postwar civil defense turned the front lawn into the front line The reliance on atomic weaponry as a centerpiece of U S foreign policy cast a mushroom cloud over everyday life American citizens now had to imagine a new kind of war one in which they were both combatants and targets It was the Federal Civil Defense Administration s job to encourage citizens to adapt to their nuclear present and future As McEnaney demonstrates the creation of a civil defense program produced new dilemmas about the degree to which civilian society should be militarized to defend itself against internal and external threats Conflicts arose about the relative responsibilities of state and citizen to fund and implement a home front security program The defense establishment s resolution was to popularize and privatize military preparedness The doctrine of self help defense demanded that citizens become autonomous rather than rely on the federal government for protection Families would reconstitute themselves as paramilitary units that could quash subversion from within and absorb attack from without Because it solicited an unprecedented degree of popular involvement the FCDA offers a unique opportunity to explore how average citizens community leaders and elected officials both participated in and resisted the creation of the national security state Drawing on a wide variety of archival sources McEnaney uncovers the broad range of responses to this militarization of daily life and reveals how government planners and ordinary people negotiated their way at the dawn of the atomic age Her work sheds new light on the important postwar debate about what total military preparedness would actually mean for American society

Civil Defense Begins at Home [list of Publications]. United States. Government Printing Office, 1951 **Civil Defense Begins at Home** Laura McEnaney, 1996 **Understanding the imaginary war** Matthew Grant, Benjamin Ziemann, 2016-09-01 This collection offers a fresh interpretation of the Cold War as an imaginary war a conflict that had imaginations of nuclear devastation as one of its main battlegrounds The book includes survey chapters and case studies on Western Europe the USSR Japan and the USA Looking at various strands of intellectual debate and at different media from documentary film to fiction the chapters demonstrate the difficulties to make the unthinkable and unimaginable nuclear apocalypse imaginable The book will be required reading for everyone who wants to understand the cultural dynamics of the Cold War through the angle of its core ingredient nuclear weapons "In Case Atom Bombs Fall" Michael Scheibach, 2009-08-24 With the very real possibility of nuclear war looming on the horizon from 1945 to the early 1960s both federal and local governments took on the responsibility of educating Americans on how to survive the expected blasts residual fallout and radiation poisoning Duck and cover drills bomb shelters and evacuation plans became an integral part of

every citizen's daily life This book provides a sampling of civil defense publications issued by government agencies and organizations during this era Arranged thematically the book includes sections covering the impact and power of the atomic bomb radioactive fallout women and the home the importance of being prepared civil defense in schools fallout shelters evacuation plans and finally the call for peace or else *Atomic Americans* Sarah E. Robey, 2022-03-15 At the dawn of the Atomic Age Americans encountered troubling new questions brought about by the nuclear revolution In a representative democracy who is responsible for national public safety How do citizens imagine themselves as members of the national collective when faced with the priority of individual survival What do nuclear weapons mean for transparency and accountability in government What role should scientific experts occupy within a democratic government Nuclear weapons created a new arena for debating individual and collective rights In turn they threatened to destabilize the very basis of American citizenship As Sarah E Robey shows in *Atomic Americans* people negotiated the contours of nuclear citizenship through overlapping public discussions about survival Policymakers and citizens disagreed about the scale of civil defense programs and other public safety measures As the public learned more about the dangers of nuclear fallout critics articulated concerns about whether the federal government was operating in its citizens best interests By the early 1960s a significant antinuclear movement had emerged which ultimately contributed to the 1963 nuclear testing ban *Atomic Americans* tells the story of a thoughtful body politic engaged in rewriting the rubric of rights and responsibilities that made up American citizenship in the Atomic Age

The Atomic Bomb and American Society Rosemary B. Mariner, G. Kurt Piehler, 2009 Drawing on the latest research on the atomic bomb and its history the contributors to this provocative collection of eighteen essays set out to answer two key questions First how did the atomic bomb a product of unprecedented technological innovation rapid industrial scale manufacturing and unparalleled military deployment shape U S foreign policy the communities of workers who produced it and society as a whole And second how has American society's perception that the the bomb is a means of military deterrence in the Cold War era evolve under the influence of mass media scientists public intellectuals and even the entertainment industry In answering these questions *The Atomic Bomb and American Society* sheds light on the collaboration of science and the military in creating the bomb the role of women working at Los Alamos the transformation of nuclear physicists into public intellectuals as the reality of the bomb came into widespread consciousness the revolutionary change in military strategy following the invention of the bomb and the development of Cold War ideology the image of the bomb that was conveyed in the popular media and the connection of the bomb to the commemoration of World War II As it illuminates the cultural social political environmental and historical effects of the creation of the atomic bomb this volume contributes to our understanding of how democratic institutions can coexist with a technology that affects everyone even if only a few are empowered to manage it Rosemary B Mariner is formerly Joint Chiefs of Staff Chair and Professor of Military Studies for the National War College She is currently a lecturer in history at the
