Dynasties Of Coercion

Liesbeth Geevers, Harald Gustafsson

Dynasties Of Coercion:

Dynasties of Coercion Eanna Mulloy,1986 *Capital, Coercion, and Crime* John Thayer Sidel,1999 Drawing on in depth research in the Philippines this book reveals how local forms of political and economic monopoly may thrive under conditions of democracy and capitalist development [Dynasties and State Formation in Early Modern Europe](#) Liesbeth Geevers,Harald Gustafsson,2025-10-01 In state formation research princely houses have been a blind spot The development of states has been discussed from many perspectives like interstate competition internal social conflicts fiscal military developments etc but at the centre of most European states there was a princely house These ruling houses have been overlooked in studies about state formation What s more when discussing such dynasties the vertical chronological perspective grandfather father son is all dominating for instance in the focus on dynastic continuity dynastic culture and representation and the like This collection of essays highlights the horizontal perspective ruler all children siblings cousins in asking how the members of a princely family acted as a power network The quest is to develop an understanding how this family network interplayed with other factors in the state formation process This volume brings together existing knowledge of the topic with the aim of exchanging insights and furthering knowledge [Capitalist Dictatorship](#) Milan Zafirovski,2021-04-26 Milan Zafirovski identifies and investigates the resurgence of capitalist dictatorship in contemporary society especially after 2016 This book introduces the concept of capitalist dictatorship to the academic audience for the first time It examines the capitalist dictatorship as a total social system composed of specific systems such as a coercive economy repressive polity illiberal civil society and irrational culture in contrast to liberal democracy It also investigates multiple dimensions forms and indicators of capitalist dictatorship and calculates degrees of capitalist dictatorship for contemporary Western and comparable societies such as OECD countries Capitalist dictatorship including autocracy Zafirovski argues is the gravest threat to contemporary democratic society post 2016 [Chaos, Violence, Dynasty](#) Eric M. McGlinchey,2011-09-30 In the post Soviet era democracy has made little progress in Central Asia In Chaos Violence Dynasty Eric McGlinchey presents a compelling comparative study of the divergent political courses taken by Kyrgyzstan Uzbekistan and Kazakhstan in the wake of Soviet rule McGlinchey examines economics religion political legacies foreign investment and the ethnicity of these countries to evaluate the relative success of political structures in each nation McGlinchey explains the impact of Soviet policy on the region from Lenin to Gorbachev Ruling from a distance a minimally invasive system of patronage proved the most successful over time but planted the seeds for current neo patrimonial governments The level of direct Soviet involvement during perestroika was the major determinant in the stability of ensuing governments Soviet manipulations of the politics of Uzbekistan and Kazakhstan in the late 1980s solidified the role of elites while in Kyrgyzstan the Soviets looked away as leadership crumbled during the ethnic riots of 1990 Today Kyrgyzstan is the poorest and most politically unstable country in the region thanks to a small corrupt and fractured political elite In Uzbekistan Islam Karimov

maintains power through the brutal suppression of disaffected Muslims who are nevertheless rising in numbers and influence In Kazakhstan a political machine fueled by oil wealth and patronage underlies the greatest economic equity in the region and far less political violence McGlinchey s timely study calls for a more realistic and flexible view of the successful aspects of authoritarian systems in the region that will be needed if there is to be any potential benefit from foreign engagement with the nations of Central Asia and similar political systems globally

Fortnight ,1986 **Night Of A Hundred Ghosts** Tiffany W Farley, For one hundred silent nights he guarded a forgotten grave on the edge of the mortal world But when the final night fell the veil between realms shattered A hundred ghosts rose from the darkness not to haunt him but to summon him Marked by fate he is called to Fengdu the City of the Dead where spirits bow and ancient powers awaken As the boundary between life and death collapses he must uncover why the dead seek him and what destiny awaits as their chosen ruler A dark atmospheric tale of ghosts fate and the rise of a man destined to command the underworld **American Review** Vivian Trow Thayer,1925 Includes section Books **The Field Day Archive** Cormac Ó Duibhne,2007 **The Bismarck dynasty** William Thomas Stead,1889 *Substance of the Ancient Maya* Andrew K. Scherer,Thomas G. Garrison,2024-12-01 Substance of the Ancient Maya Kingdoms and Communities Objects and Beings collects twelve essays by top scholars that highlight what is new in research pertaining to the ancient Maya Subjects range from updated political histories of major kingdoms in the southern Maya Lowlands to explorations of the nature of Maya writing and materiality These essays were inspired by the scholarship of Stephen Houston and celebrate his transdisciplinary commitment to research in anthropological archaeology epigraphy and art history The contributions in this volume are organized into two sections that respectively reflect different scales from which to approach the substance of the ancient Maya from hand held objects to entire kingdoms This dichotomy reflects the breadth of questions central to current research on the Maya It also illustrates how certain themes such as the relationship between the living and the realm of the supernatural are fundamental to both thinking by and about the Maya at all scales A diversity of methods is not only embodied by this assemblage of essays but is also spread equally across the two sections of the book illustrating that archaeologists epigraphers geographers and art historians can equally contribute to the substance of kingdoms and communities as they can to objects and beings Collectively these contributions show how the objects and beings that composed the Classic Maya world were both literal and sacred substances that mediated relations not only among living people but with gods and ancestors A final chapter by Stephen Houston reflects on unfinished projects of the ancient Maya as a metaphor for all of the work yet to be done to move forward in our studies of the past [Annual Report of the American Historical Association](#) American Historical Association,1900 *Bismarck: his deeds and his aims.
