This expanded and revised edition of the bibliography originally compiled for the United States Air Force Historical Research Agency is the most comprehensive listing of unofficial published histories of the United States Air Force and its antecedents. It covers the air force from its genesis as the US Army Signal Corps Aviation Section to the present. These titles are a rich source of information for anyone interested in the history of combat and peacetime operations of the Air Force. Researchers and libraries will find the organization of titles easy to use. Entries include private sponsored or unofficial histories often written by the unit historian, personal narratives, purely photographic or pictorial histories, route of battle maps, published or printed rosters, officially produced titles. This is an indispensable resource for military aviation historians, libraries with strong collections in military and air force history, and unit history collectors. It is also of special interest to genealogists as many unit histories contain rosters and photos of personnel.

*World War II in Europe* David T. Zabecki, 2015-05-01. World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall. This encyclopedia offers a focused overview of this complex and volatile era, the circumstances that led up to war, the underlying causes, its unfolding, and consequences. Organized for quick and precise access, more than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation. All the key ideas, events, actions, weapons, individuals, and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League, from the OSS to the Africa Corps, from the Chetniks to the Jedburghs, from the battle of Kursk to Operation Mincemeat, from Bill Donovan to Otto Skorzeny, from Gestapo to SMERSH, from Georgi Zhukov to Jean Leclerc, from the 88 gun to the Norden Bombsight. Covers important neglected subjects. The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia. A key section inspects and rates all the major weapons with handy tables for easy comparison. And in recognition of the first large scale participation of women in the war, the volume thoroughly documents their individual and unit contributions to the Allied effort. Finally, the encyclopedia discusses battlefield realities that explain, for example, why the airborne drops at Normandy succeeded and the ones at Arnheim failed. A bibliography, glossary, maps, photographs, and weapons and data tables enhance the coverage. Also includes 16 maps.

**Journey to the Horizon** Hans Onderwater, Brian Lissette, 2021-07-01. This is the epic story of escape and evasion during World War Two. Main character is Donald Kenyon Willis, an American pilot who fought with the Fins against the Russians in 1940, then joined the Norwegian Naval Air Arm against the Germans, escaped to the Shetlands, joined the RAF as one of the first Eagle Squadron pilots, until he joined the USAAF. After the war and a spell as a base commander in Austria and Germany, he became a test pilot in JATO Jet Assisted Take Off experiments from Wright Patterson Air Base in Ohio, USA. He was one of the last five airmen to evade capture via the Pyrenees the night before D Day, with American Lieutenant Colonel Thomas H. Hubbard and 2nd Lieutenant Jack Cornett, and Britons Pilot Officer Len Barnes and Sergeant Ron Emeny. *JOURNEY TO THE HORIZON* tells the story of three fighter pilots and two Lancaster crews who were shot down by the Germans. It follows them on the run, hiding in captivity, and in some

cases in death They were Britons Canadians New Zealanders and Americans Five of them met in Paris while being guided by members of the Comete Escape line others evaded in different ways Some endured the harsh life in a POW camp while in one case an airmen even ended up in Buchenwald concentration camp Those who died now rest at various cemeteries in France In the book Onderwater and Lissette also tell about the sometimes dreadful experiences of the fellow crew members of Barnes and Emeny after their two Lancasters crashed in France In the course of the research Hans Onderwater followed the same evasion route meeting the helpers who risked their lives crossed the Pyrenees on foot with the Basque guide of 1944 until he too reached Gibraltar He visited Stalag Luft 1 Barth on the Baltic coast and Stalag Luft 3 Sagan in Poland Buchenwald near Weimar and Ravensbruck near Berlin He spoke with the five airmen or their families and corresponded with the others During the last forty years he interviewed over 100 people who were in some major or minor way connected to the airmen and their experiences
