and subsequently published in their journals and so have had the advantage of being discussed and criticized by experts in the respective subjects The questions of the materials upon which the writing typing or printing appears of handwriting of finger prints photography and microscopical examination are all inseparably connected with the scientific examination of documents and these I have dealt with in due proportion to the whole subject bearing in mind works already available For the purpose of presenting expert evidence in legal cases criminal charges the investigation of anonymous letters and the like such studies are of material importance and as little information on the chemical questions involved was available I had to make prolonged laboratory experiments to obtain trustworthy results and these records should prove of service to others In connection with the chemical examination of documents I am privileged to make use of numerous details of cases and observations recorded by Mr A Lucas Director of the Government Laboratory Cairo whose excellent work on Forensic Chemistry contains short sections on the subject My best thanks are also due to Mr A E Osborn of New York for valuable information kindly sent to me and for several illustrations as well as for permission to quote from his standard work *Questioned Documents* *Bibliography of Pulp and Paper Making 1900-1928* Clarence Jay West,1929 *Encyclopedia of Library and Information Science, Second Edition* - Miriam Drake,2003-05-20 A revitalized version of the popular classic the *Encyclopedia of Library and Information Science Second Edition* targets new and dynamic movements in the distribution acquisition and development of print and online media compiling articles from more than 450 information specialists on topics including program planning in the digital era recruitment information management advances in digital technology and encoding intellectual property and hardware software database selection and design competitive intelligence electronic records preservation decision support systems ethical issues in information online library instruction telecommuting and digital library projects **Transactions of the Glasgow Archaeological Society** Glasgow Archaeological Society,1890
