The field covered by this volume includes the work and influence of foreign born painters such as Holbein and Van Dyck as
well as native masters from Gower and Milliard to Gainsborough Stubbs and Sandby We can follow step by step the
development and flowering of British painting and can compare for example the work of the English Sir Joshua Reynolds with
the Scottish Allan Ramsay Portrait and landscape history piece miniature watercolour there is a record of them all The text is
both scholarly and readable and the illustrations include well known examples of British painting and others seldom or never
before reproduced between the covers of a book This is the fifth edition of this work newly enhanced with colour illustrations

students teachers and researchers with reference sources in any branch of English studies which Marcuse defines as all
those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English
language and literature Within each of 24 major sections Marcuse lists and annotates bibliographies guides reviews of
research encyclopedias dictionaries journals and reference histories The annotations and various indexes are models of
clarity and usefulness and cross references are liberally supplied where appropriate Although cost conscious librarians will
probably consider the several other excellent literary bibliographies in print such as James L Harner s Literary Research
