The First One Hundred Years of Upson County Negro History James McGill, 2017-12-21 Upson County Georgia has produced great Negro leaders whom God has given gifts to make a difference in the first one hundred years of history As I researched the history of Upson County Georgia my soul got excited about what God did through willing vessels My goal in this book is to encourage future generations to become available vessels to be used by God as difference makers in a changing world and to show how Negroes in Upson County thrived in the early 1800s and 1900s by investing their time talents and money to make the county great Unfortunately there are very scarce recordings of history of early Negro settlers in Upson County and few vital statistics are available However as the result of painstaking effort and research as this work progressed it is believed that this volume is as accurate as humanly possible

John Brown Gordon Ralph Lowell Eckert, 2015-12-03 John Brown Gordon s career of prominent public service spanned four of America s most turbulent decades Born in Upson County Georgia in 1832 Gordon practiced law in Atlanta and in the years immediately preceding the Civil War developed coal mines in northwest Georgia In 1861 he responded to the Confederate call to arms by raising a company of volunteers His subsequent rise from captain to corps commander was unmatched in the Army of Northern Virginia He emerged from the Civil War as one of the South s most respected generals and the reputation that Gordon earned while wearing the gray significantly influenced almost every aspect of his life during the next forty years After the Civil War Gordon drifted into politics He was elected to the United

States Senate in 1823 and quickly established himself as a spokesman for Georgia and for the South as a whole. He eloquently defended the integrity of southern whites while fighting to restore home rule. In addition to safeguarding and promoting southern interests, Gordon strove to replace sectional antagonisms with a commitment to building a stronger, more unified nation. His efforts throughout his post-war career contributed significantly to the process of national reconciliation. Even in the wake of charges of corruption that surrounded his resignation from the Senate in 1880, Gordon remained an extremely popular man in the South. He engaged in a variety of speculative business ventures, served as governor of Georgia, and returned for another term in the Senate before he retired permanently from public office. He devoted his final years to lecture tours, to serving as commander in chief of the United Confederate Veterans, and to writing his memoirs, *Reminiscences of the Civil War*. Utilizing newspapers, scattered manuscript collections, and official records, Ralph Eckert presents a critical biography of Gordon that analyzes all areas of his career. As one of the few Confederates to command a corps without the benefit of previous military training, Gordon provides a fascinating example of a Civil War citizen soldier. Equally interesting, however, were Gordon's postwar activities and the often conflicting responsibilities that he felt as a southerner and an American. The contributions that Gordon made to Georgia, to the South, and to the United States during this period are arguably as important as any of his career.

The Courthouse and the Depot Wilber W. Caldwell, 2001. Their songs insist that the arrival of the railroad and the appearance of the tiny depot often created such hope that it inspired the construction of the architectural extravaganzas that were the courthouses of the era. In these buildings, the distorted myth of the Old South collided head-on with the equally deformed myth of the New South.
