Driving the transition to net zero

2022 Issue

Raising our ambition

Only by acting in partnership can we deliver the transition at the scale and pace needed.

Macquarie is committed to playing a leading role in driving the global transition to net zero. For that, we need our deep capabilities in energy, infrastructure, technology and commodities to work with clients to create practical solutions to their decarbonisation challenges. We can only realise our ambition through partnership. By supporting the transition of carbon-intensive industries. By commercialising new climate solutions and technologies. And by supporting emerging markets and developing countries to make their own transitions and adapt to changes in climate that will often impact them most. We look forward to working in partnership with you as we rise to these challenges and deliver on our collective ambition.
