**Philip Alston, Christof Heyns, Sarah
Knuckey, Thomas Probert**

Blood Feud:

Blood Feud Harry Potter, 2002 This is the first ever study of this infamous Scottish feud between the Murray and Gordon families in the sixteenth century Alston and Heyns on Unlawful Killings: A Compendium of the Jurisprudence of the United Nations Special Rapporteurs on extrajudicial, summary or arbitrary executions from 2004-2016 Philip Alston, Christof Heyns, Sarah Knuckey, Thomas Probert, 2020-01-01 This book provides a detailed overview of the law and policy related to unlawful killings and the right to life It is organized into the key thematic issues and types of killings that arose during the mandate of the UN Special Rapporteur on extrajudicial summary or arbitrary executions between 2004 2016 Each chapter contains an introductory overview and selected extracts from UN Special Rapporteur reports to the United Nations General Assembly and the Human Rights Council and other normative work and covers the applicable international law policy considerations and common fact scenarios Philip Alston held the mandate of United Nations Special Rapporteur on extrajudicial summary or arbitrary executions between 2004 and 2010 Christof Heyns did so from 2010 to 2016 This book was created to provide easy access to the work of the Special Rapporteurs and to be a useful guide for those studying and working to promote respect for human rights The book was edited by the two rapporteurs together with their main advisors during their tenure as mandate holders Sarah Knuckey and Thomas Probert The Kurdish National Movement Wadie Jwaideh, 2006-06-19 A seminal work in the field of Kurdish studies Wadie Jwaideh s pioneering research published for the first time presents a detailed analysis of the early phases of Kurdish nationalism and offers a framework within which to understand the movement s later development Following Wadie Jwaideh s dissertation defense his doctoral chairman took aside Jwaideh s wife Alice and asked her to submit the work for publication without Wadie s permission believing that Wadie s penchant for perfection would postpone its publication indefinitely The thesis was never published during Jwaideh s lifetime but its fame spread by word of mouth and many scholars have recognized its importance not only as a study of the earlier periods of Kurdish nationalism but also as a model for understanding its subsequent history The work now stands as a classic referenced by some of the most renowned scholars in the field Its publication will permit it to reach a greater audience and to contribute more fully to the understanding and appreciation of this geopolitical and cultural movement Jwaideh was born in the southern Iraqi city of Basra into an Arabic speaking Christian family that later moved to Baghdad His intimate knowledge of the land and its people gave Jwaideh shrewd insight into Kurdish society and politics Exploring the rich historical roots of the Kurdish national movement he challenges the established view of the early Kurdish uprisings as isolated incidents triggered by economic hardship or political dissatisfaction Instead he offers a new interpretation of the Kurds nationalist position convincingly demonstrating the age and depth of their grievances This complex and layered history of the Kurdish nationalist movement offers a valuable perspective from which to view the current conditions in Iraq Jwaideh s sensitive and prescient treatment of this region gives his study great contemporary relevance **Homicide in the Biblical**

World Pamela Barmash,2005 Homicide in the Biblical World analyses the treatment of homicide in the Hebrew Bible and demonstrates that it is directly linked to the unique social structure and religion of ancient Israel Close parallels between biblical law and ancient Near Eastern law are evident in the laws of the ox that gored and the pregnant woman who is assaulted but when the total picture of the process by which homicide was adjudicated comes into view what is most noticeable is how little of it is similar to ancient Near Eastern law This book reconstructs biblical law from both legal texts and narrative texts and analyses both the law collections and documents from actual legal cases from the ancient Near East
