video games including popular works that often escape critical inquiry Dystopian States of America features a suite of critical essays on five themes war pandemics totalitarianism environmental calamity and technological overreach that serve as the foundation for most dystopian worlds of the imagination These offerings complement one another enabling readers to explore dystopian conceptions of America and the world from multiple perspectives and vantage points *Dystopian Visions* Naomi R. Stankow-Mercer,2003 *Dreams of Paradise, Visions of Apocalypse* J. background information As already mentioned the definitions will be followed by an in depth analysis of significant text passages Finally my conclusion is intended to sum up the most important findings and aims to present a classification based on the analysis in the main part
