Inventing Abstraction, 1910-1925 Leah Dickerman, Matthew Affron, 2012 This book explores the development of abstraction from the moment of its declaration around 1912 to its establishment as the foundation of avant garde practice in the mid 1920s The book brings together many of the most influential works in abstractions early history to draw a cross media portrait of this watershed moment in which traditional art was reinvented in a wholesale way Works are presented in groups that serve as case studies each engaging a key topic in abstractions first years an artist a movement an exhibition or thematic concern Key focal points include Vasily Kandinskys ambitious Compositions V VI and VII a selection of Piet Mondrians work that offers a distilled narrative of his trajectory to Neo plasticism and all the extant Suprematist pictures that Kazimir Malevich showed in the landmark 0 10 exhibition in 1915 0Exhibition MoMA New York USA 23 12 2012 15 4 2013

Light for a Cold Land Peter Larisey, 1993-01-10 Lawren Stewart Harris s artistic career began in the first decade of our century Well known for the nationalist inspired landscapes that he painted between 1908 and 1932 Harris turned resolutely in 1934 to the painting of abstractions He continued to create works that reflected his own modernist and mystical developments until the end of his life Canadians praise Harris s landscapes and admire him as a planner of innovative and heroic sounding sketching trips into the North He is also recognized as the chief organizer of the Group of Seven A long list of younger artists he considered creative greatly benefited from Harris s encouragement and often generous practical help many of them have been interviewed for this book In the lives of some Canadians harris still functions as a gurulike guild role he was quite content to take on during his own lifetime because of the spiritual content of his art and aeathetic writings and the example of his optimistic vigorous and apparently untroubled life But Harris s was not an untroubled life and Light for a Cold Land examines his personal crises and difficulties some of which caused important changes in his art The book also uncovers the painting styles artistic tensions and cultural dynamics of the German milieu in which Harris received his only formal art education His student years in Berlin profoundly influenced not only his art but also his artistic politics and his philosophy It is ironic that in the art of this most articulate of Canadian nationalist painters there are extensive German influences Light for a Cold Land is the first art historical study of Laren harris that attempts to explore his life and all aspects of his career It is based on extensive work in archives libraries public art galleries and private collections in Canada as well as research in Germany and interviews with mambers of Harris s family and many of his friends acquaintances coleagues and critics

Underground U.S.A. Xavier Mendik, Steven Jay Schneider, 2003-03-26 Whether defined by the carnivalesque excesses of Troma studios The Toxic Avenger the arthouse erotica of Radley Metzger and Doris Wishman or the narrative experimentations of Abel Ferrara Melvin Van Peebles Jack Smith or Harmony Korine underground cinema has achieved an important position within American film culture Often defined as cult and exploitation or alternative and independent the American underground retains separate strategies of production and exhibition from the cinematic mainstream while its

sexual and cinematic representations differ from the traditionally conservative structures of the Hollywood system

Underground U S A offers a fascinating overview of this area of maverick moviemaking by considering the links between the experimental and exploitative traditions of the American underground
