Archives And The Computer:

Automating the Archives University of Maryland, College Park. College of Library and Information Services, American Society for Information Science. Potomac Valley Chapter, 1981 Archives and the computer Michael J. Cook, 2014-05-20

Archives and the Computer deals with the use of the computer and its systems and programs in archiving data and other related materials The book covers topics such as the scope of automated systems in archives systems for records management archival description and retrieval and machine readable archives The selection also features examples of archives from different institutions such as the University of Liverpool Berkshire County Record Office and the National Maritime Museum The text is recommended for archivists who would like to know more about the use of computers in archiving of records and other related information **Building an Electronic Records Archive at the National Archives and Records Administration** National Research Council, Computer Science and Telecommunications Board, Committee on Digital Archiving and the National Archives and Records Administration, 2005-07-28

The federal government generates and increasingly saves a large and growing fraction of its records in electronic form In 1998 the National Archives and Record Administration NARA launched its Electronic Archives ERA program to create a system to preserve and provide access to federal electronic records To assist in this project NARA asked the NRC to conduct a two phase study to provide advice as it develops the ERA program The first two reports phase one provided recommendations on design engineering and related issues facing the program This report phase two focuses on longer term more strategic issues including technology trends that will shape the ERA system archival processes of the ERA and future evolution of the system It also provides an assessment of technical and design issues associated with record integrity and authenticity Understanding Computers

Collecting and Exhibiting Computer-Based Technology Petrina Foti, 2018-11-05 Computer technology has transformed modern society yet curators wishing to reflect those changes face difficult challenges in terms of both collecting and exhibiting Collecting and Exhibiting Computer Based Technology examines how curators at the history and technology museums of the Smithsonian Institution have met these challenges Focusing on the curatorial process the book explores the ways in which curators at the institution have approached the accession and display of technological artifacts Such collections often have comparatively few precedents and can pose unique dilemmas In analysing the Smithsonian s approach Foti takes in diverse collection case studies ranging from DNA analyzers to Herbie Hancock s music synthesizers from iPods to born digital photographs from the laptop used during the filming of the television program Sex and the City to Stanley the self driving car Using her proposed model of expert curation she synthesizes her findings into a more universal framework for understanding the curatorial methods associated with computer technology and reflects on what it means to be a curator

in a postdigital world Collecting and Exhibiting Computer Based Technology offers a detailed analysis of curatorial practice in a relatively new field that is set to grow exponentially It will be useful reading for curators scholars and students alike

Archives of Data-Processing History James W. Cortada,1990-04-24 The history of the computer and of the industry it spawned is the latest entrant into the field of historical studies Scholars beginning to turn their attention to the subject of computing need James Cortada s Archives of Data Processing History as a brief introduction to sources immediately available for investigation Each essay provides an overview of a major government academic or industrial archival collection dealing with the history of computing the industry and its leaders and is written by the archivist historian who has worked with or is responsible for the collection The archives give practical information on hours organization contacts telephone numbers survey of contents and assessments of the historical significance of the collections and their institutions Reference and business librarians will definitely want to add this volume to their collections Those interested in the history of technology the business history of the industry and the history of major institutions will want to consult it **Automating the Archives**
