

What are Biographical Research Methods?

A specific type of qualitative research “which uses stories of individuals and other ‘personal materials’ to understand the individual life within its social context” (Roberts 2002:3).

Biographical Research Methods

Maggie O'Neill, Brian Roberts, Andrew Sparkes

Biographical Research Methods:

Biographical Research Methods Robert Miller,2007 SAGE Biographical Research John Goodwin,2012-06-25

Biographical research may take a range of forms and may vary in its application and approach but has the unified and coherent aim to give voice to individuals The central concern of this collection is to assemble articles from sociology social psychology education health criminology social gerontology epidemiology management and organizational research that illustrate the full range of debates methods and techniques that can be combined under the heading biographical research Volume One Biographical Research Starting Points Debates and Approaches explores the different biographical methods currently used while locating these within the history of social science methods Volume Two Biographical Interviews Oral Histories and Life Narratives focuses on the more established interview based biographical research methods and considers the analytical strategies used for interview based biographical research Volume Three Forms of Life Writing Letters Diaries and Auto Biography considers the value of data contained within letters diaries and auto biography and illustrates how this data has been analyzed to reveal biographies and their social context Volume Four Other Documents of Life Photographs Cyber Documents and Ephemera focuses on the other human documents and objects like photographs cyber documents emails blogs social networking sites webpages and other ephemera such as official documents that are used extensively in biographical research

Biographical research methods. 4 Robert L. Miller,2005 *Biographical Research Methods* Marta J. Eichsteller,Howard H. Davis,2022-05-04 Biographical data provide unique insights into social life but they also pose some significant challenges for social science researchers This book offers a systematic flexible guide to using biographical narrative methods in your research project Drawing upon the authors own research as well as case studies from a range of international contexts and disciplines the book illustrates how biographical approaches can be tailored to different research questions and environments This book will help you to Navigate any complexities or missteps when undertaking real world research Apply your analytical and research tools to your research question Choose the right research design for your project whether single or mixed methods Ground your understanding within diverse real world research examples Clear adaptable and applied this is your definitive guide to working with biographical methods *The Turn to Biographical Methods in Social Science* Prue Chamberlayne,Joanna Bornat,Tom Wengraf,2000 Biographical research methods have become a useful and popular tool for contemporary social scientists This book combines an exploration of the origins of this field with comparative examples of the ways biographical methods have been applied

Research Methodologies for Auto/biography Studies Kate Douglas,Ashley Barnwell,2019-06-03 This collection of short essays provides a rigorous rich collaborative space in which scholars and practitioners debate the value of different methodological approaches to the study of life narratives and explore a diverse range of interdisciplinary methods Auto biography studies has been one of the most vibrant sub disciplines to emerge in the humanities and social sciences in the past decade providing significant links between

disciplines including literary studies languages linguistics digital humanities medical humanities creative writing history gender studies education sociology and anthropology The essays in this collection position auto biography as a key discipline for modelling interdisciplinary approaches to methodology and ask what original and important thinking can auto biography studies bring to discussions of methodology for literary studies and beyond And how does the diversity of methodological interventions in auto biography studies build a strong and diverse research discipline In including some of auto biography s leading international scholars alongside emerging scholars and exploring key subgenres and practices this collection showcases knowledge about what we do when engaging in auto biographical research Research Methodologies for Auto biography Studies offers a series of case studies that explore the research practices reflective behaviours and ethical considerations that inform auto biographical research **SAGE Biographical Research** ,2012 Advances in Biographical Methods Maggie O'Neill,Brian Roberts,Andrew Sparkes,2014-12-05 Rooted in a long and diverse genealogy biographical approaches have developed from a focus upon a single story a life story and personal documents e g diaries to encompass more routinely autobiographical secondary and archival research and analysis as well as multi media arts based creative multi sensory methods Biographical Research and practices as part of human understanding helps people to make sense of what has been and what is happening in their lives cultures communities and societies Advances in Biographical Methods Creative Applications takes up these themes theorising doing and applying current advances in biographical methods It demonstrates the momentum with which they areas are developing as a field of scholarship especially in relation to creative innovations and applications such as in new forms of interview and other practices and debates on its interlinking with art performance and digital methods Biographical Research Ana Caetano,Magda Nico,2022-03-30 Studying people s lives requires acknowledging the multiple entanglements between individual singularity and processes of social patterning This book testifies how challenging and creative the study of these connections can be It gathers international contributions that show in imaginative ways how a person s life or specific domains of existence can be observed tackled and analysed across time This volume reveals the potential of biographical research in the production of social theory in the development of methodological innovation in giving voice and protagonism to people and in the understanding of the social unfolding of their lives It is a testimony of a vibrant and youthful field with a long tradition in social sciences and with numerous connections with other study areas namely the life course approach The different chapters illustrate how the challenges posed by this type of research focused on the individual level of analysis are particular and what creative responses are required to continue analysing the link between biography and society The chapters in this book were originally published as a special issue of the journal *Contemporary Social Science* *Biographical Life Course Research* Ann Nilsen,2023-12-13 This open access book explores an approach that connects individual and societal processes throughout history and shifting trends in sociological perspectives influenced by C Wright Mills theories of time and temporality It traces its origins from

American pragmatist thought and Chicago qualitative sociology in the early 20th century to the revival of biographical research in European and American sociology during the 1970s The book shows empirical studies from this vibrant research approach can bridge methodological gaps between qualitative and quantitative biographical studies applicable to various topics like class gender ethnicity and intergenerational dimensions

Biographical Methods and Professional Practice Prue Chamberlayne, Joanna Bornat, Ursula Apitzsch, 2004-03-10 AGREED WITH AUTHORS The turn to biographical methods in social science is yielding a rich harvest of research outcomes and invigorating the relationship between policy and practice This book uses a range of interpretive approaches to reveal the dynamics of service users and professionals individual experiences and life worlds It shows how biographical methods can improve theoretical understanding of professional practice as well as enrich the learning and development of professionals and promote more meaningful and creative practitioner service user relationships Biographical methods and professional practice reviews applications of biographical methods in both policy and practice in a range of professional contexts from health and social care to education and employment explores the impact on professional practice of social change in three main arenas transformation from Eastern to Western types of society in Europe major shifts in social and welfare principles experiences of immigration and of new cultural diversities critically evaluates subjective and reflexive processes in interactions between researchers practitioners and users of services considers the institutional arrangements and cultural contexts which support effective and sensitive interventions and which support and encourage change in the lives of individuals With contributions from leading international experts it provides a valuable comparative perspective Researchers policy analysts and practitioners postgraduate students teachers and trainers will find this book a stimulating read Prue Chamberlayne is a Senior Research Fellow and Joanna Bornat is Professor of Oral History both in the School of Health and Social Welfare The Open University Ursula Apitzsch is Professor in Sociology and Political Science at the J W Goethe University Germany

Realist Biography and European Policy Jeffrey David Turk, Adam Mrozowicki, 2013-12-11 Realist Biography and European Policy is the first concerted attempt to integrate the separate strands of critical realism as a developed philosophy for social science with biographical narrative methods as a concrete methodological approach The main goal is to demonstrate that the combination of critical realism and biographical methods is not only possible but it is exceptionally well suited for the exploration of newly emerging research fields within European policy studies This volume offers new insights to and is an indispensable reference for researchers in search of solid underpinnings for their own empirical research Foreword by Miriam Kennet Director of the Green Economics Institute Founder and Editor of the International Journal of Green Economics Contributors Tatiana Bajuk Sen ar Scientific Research Centre of the Slovenian Academy of Sciences and Arts Institute of Slovenian Ethnology Bob Carter University of Leicester Department of Sociology Prue Chamberlayne Open University Faculty of Health and Social Care Markieta Domecka independent researcher Norbert Kluge coordinator and adviser for the European Works Council of

ThyssenKrupp AG Lyudmila Nurse director of Oxford XXI Elisabetta Perone University of Naples Federico II Valeria Pulignano Centre for Sociological Research KU Leuven Antonella Span University of Naples Federico II Tom Wengraf Middlesex University Biography and Education Michael Erben,2005-08-12 Over recent years biographical studies have gained an increasingly important place in academic study The two are inextricably linked Education uses biography in teaching and in biography education features strongly as a formative stage in personal development This book elaborates on the analytical work that has drawn attention to biography and education and seeks to expand the understanding of lives in educational contexts Mainstream sociology has been quick to embrace this treatment of individuals as biographical appearances but it is even more relevant in the field of education

Encyclopedia of the Sciences of Learning Norbert M. Seel,2011-10-05 Over the past century educational psychologists and researchers have posited many theories to explain how individuals learn i e how they acquire organize and deploy knowledge and skills The 20th century can be considered the century of psychology on learning and related fields of interest such as motivation cognition metacognition etc and it is fascinating to see the various mainstreams of learning remembered and forgotten over the 20th century and note that basic assumptions of early theories survived several paradigm shifts of psychology and epistemology Beyond folk psychology and its naive theories of learning psychological learning theories can be grouped into some basic categories such as behaviorist learning theories connectionist learning theories cognitive learning theories constructivist learning theories and social learning theories Learning theories are not limited to psychology and related fields of interest but rather we can find the topic of learning in various disciplines such as philosophy and epistemology education information science biology and as a result of the emergence of computer technologies especially also in the field of computer sciences and artificial intelligence As a consequence machine learning struck a chord in the 1980s and became an important field of the learning sciences in general As the learning sciences became more specialized and complex the various fields of interest were widely spread and separated from each other as a consequence even presently there is no comprehensive overview of the sciences of learning or the central theoretical concepts and vocabulary on which researchers rely The Encyclopedia of the Sciences of Learning provides an up to date broad and authoritative coverage of the specific terms mostly used in the sciences of learning and its related fields including relevant areas of instruction pedagogy cognitive sciences and especially machine learning and knowledge engineering This modern compendium will be an indispensable source of information for scientists educators engineers and technical staff active in all fields of learning More specifically the Encyclopedia provides fast access to the most relevant theoretical terms provides up to date broad and authoritative coverage of the most important theories within the various fields of the learning sciences and adjacent sciences and communication technologies supplies clear and precise explanations of the theoretical terms cross references to related entries and up to date references to important research and publications The Encyclopedia also contains biographical entries of individuals who have substantially contributed to the

sciences of learning the entries are written by a distinguished panel of researchers in the various fields of the learning sciences Reader's Guide to the Social Sciences Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense

Exploring Aging Masculinities D. Jackson,2016-05-31 This book explores the lived embodied experiences of aging men as a counterpoint to the weary stereotypes often imposed on them Conventionally in Western cultures they are seen as inevitably in decline The book challenges these distorted images through a detailed analysis of aging men s life stories

Cultural, Autobiographical and Absent Memories of Orphanhood Delyth Edwards,2017-10-24 This book offers an empirically informed understanding of how cultural autobiographical and absent memories of orphanhood interact and interconnect or come into being in the re telling of a life story and construction of an identity The volume investigates how care experienced identities are embedded within personal social and cultural practices of remembering The book stems from research carried out into the life hi stories of twelve undervalued historical witnesses Roberts 2002 of orphanhood women who grew up in Nazareth House children s home in Belfast Northern Ireland during the 1940s 50s and 60s Several themes are covered including histories of care in Northern Ireland narratives and memories sociologies of home and self and identity The result is an impressive text that works to introduce readers to the complexity of memory for care experienced people and what this means for their life story and identity

Using Biographical Methods in Social Research Barbara Merrill,Linden West,2009-05-18 Using Biographical Methods in Social Research provides an informative comprehensive accessible and practical guide to the nature and use of biographical methods combining a consideration of theoretical issues with practical guidance as well as reflections on the personal experience of doing research Barbara Merrill and Linden West consider important questions about who and what research is for and what makes it valid alongside the practical business of interviewing transcribing analyzing and writing up of biographical data The authors draw on their sociological and psychological orientations to provide a truly interdisciplinary approach to the subject and provide numerous examples of biographical research across the social sciences This book will equip students with all the skills necessary to undertake biographical research as well as to fully understand what they are doing and the assumptions they make about the nature of truth knowledge story telling and being human It will be useful for students and researchers using biographical methods in a range of disciplines including sociology social policy social psychology health care and education The Interview Jonathan Skinner,2020-06-03 What are new interview methods and practices in our new interview society and how do they relate to traditional social science research This volume interrogates the interview as understood used and under used by anthropologists It puts the interview itself in the hotseat by exploring the nature of the interview interview techniques and

illustrative cases of interview use What is a successful and representative interview How are interviews best transcribed and integrated into our writing Is interview knowledge production safe ethical and representative And how are interviews used by anthropologists in their ethnographic practice This important volume leads the reader from an initial scrutiny of the interview to interview techniques and illustrative case studies It is experimental innovative and covers in detail matters such as awkwardness silence and censorship in interviews that do not feature in general interview textbooks It will appeal to social scientists engaged in qualitative research methods in general and anthropology and sociology students using interviews in their research and writing in particular
