Biological Evolutionism:

Evolutionism and Its Critics Stephen K. Sanderson, 2015-12-03 *Evolutionism and Its Critics* is a critical history of evolutionary theories in the social sciences and a defense of them against their many critics Sanderson deconstructs not only the wide array of social evolutionary theories but the criticisms of the antievolutionists Deconstructing evolutionary theories means laying bare their fundamental epistemological methodological conceptual and theoretical assumptions and principles Deconstructing antievolutionism means showing just where and how the critics have for the most part gone wrong But *Evolutionism and Its Critics* aims to reconstruct as well as deconstruct and does this by building on the shoulders of past giants of evolutionary theorizing a comprehensive evolutionary interpretation of human society based on abundant scientific and historical evidence

Biological Evolutionism Constantine Cavarnos, 1997 [Darwinian Sociocultural Evolution](#) Marion Blute, 2010-01-14 Social scientists can learn a lot from evolutionary biology from systematics and principles of evolutionary ecology to theories of social interaction including competition conflict and cooperation as well as niche construction complexity eco evo devo and the role of the individual in evolutionary processes Darwinian sociocultural evolutionary theory applies the logic of Darwinism to social learning based cultural and social change With a multidisciplinary approach for graduate biologists philosophers sociologists anthropologists social psychologists archaeologists linguists economists political scientists and science and technology specialists the author presents this model of evolution drawing on a number of sophisticated aspects of biological evolutionary theory The approach brings together a broad and inclusive theoretical framework for understanding the social sciences which addresses many of the dilemmas at their forefront the relationship between history and necessity conflict and cooperation the ideal and the material and the problems of agency subjectivity and the nature of social structure

Teaching Biological Evolution in Higher Education Brian J. Alters, 2005 An important new book by the author of the bestselling text *Defending Evolution A Guide to the Creation Evolution Controversy* this title examines the controversial issues surrounding this central concept of life science and explores students common scientific misconceptions describes approaches for teaching topics and principles of evolution and offers strategies for handling the various problems some students have with the idea of evolution due to religious influences

[Radicalism, Revolution, and Reform in Modern China](#) Catherine Lynch, Robert B. Marks, Paul G. Pickowicz, 2011-03-31 This volume illuminates the relationship of China's radical past to its reformist present as China makes a way forward through very differently conceived and contested visions of the future In the context of early twenty first century problems and the failures of global capitalism is China's history of revolutionary socialism an aberration that is soon to be forgotten or can it serve as a resource for creating a more fully human and radically democratic China with implications for all of us Ranging from the early years of China's revolutionary twentieth century to the present the essays collected here look at the past and present of China with a view toward better understanding the ideas ideals and people who have dared to

imagine radical transformation of their worlds and to assess the conceptual political and social limitations of these visions and their implementations The volume s chapters focus on these issues from a range of vantage points representing a spectrum of current scholarship The first half of the book brings new insights to understanding how early twentieth century intellectuals interpreted ideas that allowed them to break with China s past and to envision new paths to a modern future It treats of Chen Duxiu a founder of the Communist party Mao Zedong and Mao in relation to the non Communist Liang Shuming and with the Dalai Lama With continuing threads of nation and nationalities of peasants utopias and dystopias linking the chapters the book s second half looks broadly at the consequences of the implementations of radical ideas at the same time critiquing our accepted frameworks of analysis Moving up to the present the book investigates the effects of the reforms since the 1980s on long term environmental degradation and on the emergence of a capitalist rural economy It gives an unsparing view into contemporary rural China through independent films The book concludes with an analysis of the unshakable persistence of the shibboleth the rise of China in popul

Biology , *Rethinking Sociological Theory* Stephen K. Sanderson,2015-11-17 Stephen K Sanderson s latest book recaptures a scientific theoretical sociology one whose fundamental aim is the formulation of real theories that can be empirically tested Sanderson reviews the major theoretical traditions within contemporary sociology explicating their key principles critically evaluating these principles and their applications and showcasing exemplars He judges each tradition by asking whether it has generated falsifiable research programs Although principally a work of theoretical critique *Rethinking Sociological Theory* is also a valuable textbook for both undergraduate and graduate courses in sociological theory

Darwin in the Jewish Imagination Daniel R. Langton,2025-10-09 Darwin in the Jewish Imagination provides an overview of Jewish responses to Darwinian evolution one of the most transformative and challenging ideas of the industrial age Spanning a century of intellectual and cultural history it examines how Jewish thinkers traditionalists reformers secularists mystics and philosophers grappled with the profound implications of evolutionary theory for their religious beliefs and cultural identities The book offers close readings of key figures and debates from Europe to the United States situating them within the broader contexts of the religion science controversy Jewish Christian interfaith relations and the intellectual challenges of modernity A central theme is the pan en theistic tendency evident in Jewish thought reflecting a vision of God as intimately connected with the evolving universe and its natural laws It explores how Jewish thinkers reinterpreted foundational concepts such as creation divine action and human morality in light of Darwin s ideas This interdisciplinary work not only illuminates how Jewish thought adapted to evolutionary theory but also reveals the broader cultural and theological exchanges shaping modern Judaism By examining these responses the book sheds light on how science and Jewish religion have engaged in an enriching dialogue with profound consequences for modern Jewish thought belief and identity

Writing Anthropologists, Sounding Primitives A. Elisabeth Reichel,2021-08 Writing Anthropologists

Sounding Primitives re examines the poetry and scholarship of three of the foremost figures in the twentieth century history of U S American anthropology Edward Sapir Margaret Mead and Ruth Benedict While they are widely renowned for their contributions to Franz Boas s early twentieth century school of cultural relativism what is far less known is their shared interest in probing the representational potential of different media and forms of writing This dimension of their work is manifest in Sapir s critical writing on music and literature and Mead s groundbreaking work with photography and film Sapir Mead and Benedict together also wrote more than one thousand poems which in turn negotiate their own media status and rivalry with other forms of representation A Elisabeth Reichel presents the first sustained study of the published and unpublished poetry of Sapir Mead and Benedict charting this largely unexplored body of work and relevant selections of the writers scholarship In addition to its expansion of early twentieth century literary canons Writing Anthropologists Sounding Primitives contributes to current debates about the relations between different media sign systems and modes of sense perception in literature and other media Reichel offers a unique contribution to the history of anthropology by synthesizing and applying insights from the history of writing sound studies and intermediality studies to poetry and scholarship produced by noted early twentieth century U S American cultural anthropologists Access the OA edition here [Capitalist Dictatorship](#) Milan Zafirovski,2021-04-26 Milan Zafirovski identifies and investigates the resurgence of capitalist dictatorship in contemporary society especially after 2016 This book introduces the concept of capitalist dictatorship to the academic audience for the first time It examines the capitalist dictatorship as a total social system composed of specific systems such as a coercive economy repressive polity illiberal civil society and irrational culture in contrast to liberal democracy It also investigates multiple dimensions forms and indicators of capitalist dictatorship and calculates degrees of capitalist dictatorship for contemporary Western and comparable societies such as OECD countries Capitalist dictatorship including autocracy Zafirovski argues is the gravest threat to contemporary democratic society post 2016 [Applying Evolutionary Archaeology](#) Michael J. O'Brien,R. Lee Lyman,2000-03-31 Anthropology and by extension archaeology has had a long standing interest in evolution in one or several of its various guises Pick up any lengthy treatise on humankind written in the last quarter of the nineteenth century and the chances are good that the word evolution will appear somewhere in the text If for some reason the word itself is absent the odds are excellent that at least the concept of change over time will have a central role in the discussion After one of the preeminent and often vilified social scientists of the nineteenth century Herbert Spencer popularized the term in the 1850s evolution became more or less a household word usually being used synonymously with change albeit change over extended periods of time Later through the writings of Edward Burnett Tylor Lewis Henry Morgan and others the notion of evolution as it applies to stages of social and political development assumed a prominent position in anthropological disc sions To those with only a passing knowledge of American anthropology it often appears that evolutionism in the early twentieth century went into a decline at the hands of Franz Boas and those of similar

outlook often termed particularists However it was not evolutionism that was under attack but rather comparativism an approach that used the ethnographic present as a key to understanding how and why past peoples lived the way they did Boas 1896

Weltanschauung and Apologia Elias Hofer,2022-10-11 This book allows us to accompany C S Lewis on his intellectual and spiritual journey from atheism to pantheism and eventually to Christianity It analyzes key elements of Lewis s Christian worldview and identifies challenges leveled against it from alternative worldviews It examines Lewis s apologetic methodology highlighting how it was shaped by his worldview and provides an analysis of Lewis s specific responses to a number of objections The project also serves as a comparative analysis of worldviews particularly as they relate to truth claims of the Christian faith The notion of worldview is critical to the formulation of views One s worldview determines how reality is perceived It s characterized as a set of glasses through which we view our surroundings and interpret experiences It accounts for the perspective we bring to every event in life and helps explain why different people see things differently when looking at the same data The same evidence may lead one person to reject a particular conclusion while moving another to embrace what the other rejected Lewis s major works are explored at length in this book Although much has been written about Lewis Hofer s examination of the influence of worldview on his work is unique Development and Evolution
