## **Chesapeake Sailing Craft:**

Chesapeake Sailing Craft Robert H. Burgess, 2005 Thirty years have passed since the 1975 publication of Robert H Burgess's classic Chesapeake Sailing Craft and while the original edition of this book has been out of print for many years this new expanded edition brings alive the author's photographs and recollections for a new generation of readers Within these pages Burgess presents a rare photographic record of the period 1925-1975 depicting the bay sailing craft from log canoe to four-masted schooner Robert H Burgess's photographs show the vessels in all phases of their activities on these waters including loading and unloading cargoes under sail and in port in shipyards details of rigging fittings and decks interior views as powerboats and abandoned hulks No one has so thoroughly photographed the Chesapeake sailing vessels as Burgess He applied himself to the task as though he were getting paid for it But it was purely through a feeling for the history of the bay and its craft an awareness that a change was taking place that he pursued his subject so persistently If he had not undertaken this labor of love most of the sailing vessels in this volume would have passed on with no photographic record of their ever having existed This edition showcases the original text photos and captions and adds 150 new photos with captions by William A Fox The result is Chesapeake Sailing Craft Recollections of Robert H Burgess a new and expanded edition of the original volume for bay enthusiasts to enjoy As in the original edition all the photos in this book were taken by Robert Burgess They appear as he saw them through the viewfinder of his camera and as he printed them in the darkroom uncropped and unretouched

crew A variety of bay cruising boats have carried their owners comfortably around the bay and beyond And the occasional boat has succeeded in both areas as exemplified by the famous Finisterre a cruising design that won the Newport Bermuda race three times in a row Among the bay designers Thomas C Gillmer is known for his association with the Pride of Baltimore a replica of the historic Baltimore schooner He also designed the Seawind 30 said to be the first fibreglass boat to sail around the world Other bay boats described in the book include two versions of a Tancook whaler the Owens Cutter the Oxford 400 and boats by William C Dickerson and Thomas E Colvin The illustrations presented throughout the book whether hull line sketches sail plan drawings or full sail photographs are reminders of the particular beauty of sailing yachts and the special joy of yachting on the bay
