

DYNAMIC LEARNING

Use these strategies to go BEYOND traditional learning and make it more DYNAMIC!

BEYOND THE BELL

Learning doesn't have to end when the bell rings. With digital tools and devices that are available 24/7, students can continue to learn, collaborate, grow, and dig deeper into their learning on their own terms. This doesn't mean homework. This is a mindset for students that means that learning can take place anytime, anywhere and students can own it.

BEYOND THE GRADE LEVEL & SUBJECT

Let's take kids off the conveyor belt of education and give them opportunities to learn about the things that interest them beyond the subject areas we teach and even beyond what it says they should learn in each grade level. Learning doesn't have to fit inside a box.

BEYOND THE DUE DATE

Consider allowing students to continue the work that interests them beyond the final assessment of the assignment or task. Thinking, learning, exploring, shouldn't be stifled simply because it was time to turn it in.

DYNAMIC LEARNING

Learning characterized by constant change, activity, and progress—where learning lives, grows, connects, and is extended beyond the boundaries of the class day and physical location.

BEYOND THE TOOL

Think beyond using digital tools to do traditional things, like typing a paper. Use digital tools to do NEW things! Just going paperless or digital isn't enough, use tools to go further, deeper and extend the learning, and consider using tools in alternative ways—beyond their original purpose.

BEYOND THE WALLS

Bring the world to your students and bring your students to the world! Every student in every grade should have opportunities to connect and learn globally as well as publish their work for a global audience.
