*Check Six!* Jim Curran, Terrence Popravak, 2015-07-19 Makes you proud to be an American a wonderful fast paced read and I highly recommend it for any World War II aviation enthusiast Military Review There were no mission limits for a pilot in the Pacific during World War II unlike in Europe you flew until it was time to go home So it was for James Jug Curran all the way from New Guinea to the Philippines with the 348th Fighter Group the first P 47 Thunderbolt outfit in the Pacific After the attack on Pearl Harbor Curran volunteered to try flying in the blue yonder and trained as an Army fighter pilot He got his wish to fly the P 47 in the Pacific going into combat in August 1943 in New Guinea and later helping start the Black Rams fighter squadron The heavy US Thunderbolts were at first curious to encounter the nimble battle hardened Japanese in aerial combat but soon the American pilots gained skill of their own and their planes proved superior Bombers on both sides could fall to fighters but the fighters themselves were eyeball to eyeball best man win Check Six is an aviation chronicle that brings the reader into flight then into the fight throughout the Pacific War and back This work from someone who was there captures the combat experience of our aviators in the Pacific aided by pertinent excerpts from the official histories of units that Jug Curran flew with Jim Curran is not afraid to share his moments of fear and emotions during the air battles with his readers which gives the book an extra dimension AviationBookReviews.com

**Memoir: Dynamite, Check Six** Ray Jones, 2013-08-15 This book isnt primarily about relationships Theres no romance involved not even any close friendships Its mostly about flying machines and their missions But people are important After all pilots fly the machines There are a lot of characters here that aviation buffs will immediately recognize Lots of record setting test pilots and even some astronauts Older non buffs will also see familiar names an aviation legend first ever moon walkers a couple of popular entertainers a famous TV news anchor and even two former presidential candidates Watch closely some of them just flash past Airplanes star in this tale None of them were perfect but many of them excelled performing their assigned tasks North American Aircrafts F 86F was a beautiful machine But it was also a breathtakingly good MiG killer Because of its fine flying qualities it was fun to fly a sports car among sedans Fairchild Chase Aircrafts C 123B was an outstanding assault transport It was almost perfect for its mission in Vietnam but it could be a real handful for any pilot to fly I have lots of favorite airplanes but Douglas A 1H Skyraider stands out There has never been a better attack fighter in terms of accuracy in iron bomb delivery weapons load carrying ability or endurance Lockheeds F 104A or C models were many pilots dream machines Their luster dimmed somewhat for me after I flew them But they were certainly suitable for training Test Pilot School students to perform zooms and shuttle aircraft type approaches and landings Ill stop with these four Theres much more on airplanes inside about 192 000 words worth Thats a lot to slog through and you may find some parts too technical or too detailed Ignore them There are also many numbers but most arent important Browse for good stuff If you want more info on some airplane Google her up
