Academic Governance:

Competing Conceptions of Academic Governance William G. Tierney, 2004-06-08 In *Competing Conceptions of Academic Governance* William G Tierney brings together faculty members administrators and policy experts to discuss differing views of academic governance at institutional national and international levels Topics include the effects of globalization and the prospect of international accreditation balancing the entrepreneurial and philosophical goals of higher education the interaction between state governments and public universities and the conflicting interests and roles of boards of trustees administrators and faculty Carefully weighing various models and strategies this volume provides new ways of understanding and addressing the changes that are transforming higher education The broad perspectives on university governance put forward in this book relevant to all who are negotiating the perfect storm make it worthwhile reading *Review of Higher Education* This book arrives at an important moment in the evolution of university governance The research and scholarship in this volume provide a detailed depiction of the challenges faced by governing boards and postsecondary leaders *Journal of Higher Education*

The Art and Politics of Academic Governance Kenneth P. Mortimer, Colleen O'Brien Sathre, 2010-02-15 Using case studies and relevant literature this book illustrates the challenges to legitimate Shared governance domains when the routine of the academy is forced to deal with big issues often brought on by external forces Mortimer and Sathre have gone beyond a discussion of faculty administrative behavior by focusing on what happens when the legitimate governance claims of faculty trustees and presidents clash They place these relationships in the broader context of internal institutional governance and analyze the dynamics that unfold when advocacy trumps collegiality The book closes with a defense of shared governance and offers observations and practical suggestions about how the academy can share authority effectively and further achieve its mission *Faculty Participation in Academic Governance* AAHE Task Force on Faculty Representation and Academic Negotiations, American Association for Higher Education. Campus Governance Program, 1967

Policy and University Faculty Governance Michael T. Miller, Julie Caplow, 2003 Broad based inclusive decision making is the historical foundation for determining what should and can be taught how institutions should grow and who should become a part of the academic community This text brings together authors to examine faculty governance from a historical perspective tracing trends and common themes to the present day It offers real life strategies for building shared decision making environments Chapters deal with how governance is defined and utilized different aspects of internal governance performance the relationships between administrators and faculty the roles that middle managers play and how faculty leaders arise and communicate with their administrative counterparts This book is divided into three parts Part I The Context contains the following 1 Historical Overview of Faculty Governance in Higher Education Vicki J Rosser 2 The National Scene Faculty Involvement in Governance Kang Bai and 3 The College

Trustees Role in Academic Governance Houston Davis Part ii Governance within the Academic Organization contains the following 4 Leadership in Faculty Governance Choice Mandate and Default Michael T Miller and Myron L Pope 5 Path Analysis and Power Rating of Communication Channels in a Faculty Senate Setting Michael T Miller Carl Williams and Brian J Garavalia 6 Faculty Governance in the Academic Department The Role of the Chair Steve Vacik and 7 The Relationship between Faculty and Academic Administration in Governance Functions Kenneth W Borland Part iii Governance Issues and Trends contains the following 8 Academic Governance and Fiction Ethan Heinen and Julie A Caplow 9 Faculty Governance in Community Colleges a Distinct Perspective of Broad Based Decision Making Myron L Pope 10 Involving Faculty Members in Institutional Fundraising Thomas Bila and 11 Conclusion Michael T Miller

ACADEMIC GOVERNANCE IN UNIVERSITY PROFESSIONAL SCHOOLS.. William Frederick Lasher,1974 **The Multicampus University** Eugene C. Lee, Frank M. Bowen, Carnegie Commission on Higher Education,1971 *Models of Academic Governance in Emergent Universities* John Malcolm Walker,1970 Academic Governance in the Contemporary University Julie Rowlands,2016-10-12 This book addresses three central questions in contemporary university governance 1 How and why has academic governance in Anglophone nations changed in recent years and what impact have these changes had on current practices 2 How do power relations within universities affect decisions about teaching and research and what are the implications for academic voices 3 How can those involved in university governance and management improve academic governance processes and outcomes and why is it important that they do so The book explores these issues in clear concise and accessible language that will appeal to higher education researchers and governance practitioners alike It draws on extensive empirical data from key national systems in the Anglophone world but goes beyond the simply descriptive to analyse and explain *Faculty Participation in Academic Governance; Report AAHE Task Force on Faculty Representation and Academic Negotiations*,1967 **Student Participation in Academic Governance** Lora H. Robinson, Janet D. Shoenfeld,1971 *The Control of the Campus* ,1982 Governance in U S higher education is discussed based on a 1982 survey of decision making in higher education with attention to its roots the effects of current conditions on decision making arrangements and a possible governance framework for the future While both private and public education are considered the public sector is emphasized Governance is defined as both formal decision arrangements and informal procedures by which standards are maintained Information was obtained from a survey of decision making in state higher education agencies flagship universities four year colleges and two year colleges After discussing the mission of universities the tradition of self regulation in American higher education is examined including the governing board and voluntary accreditation Also covered are outside governance connections the state the federal government and the courts that have significantly altered the mission and governance of higher education It is concluded that on balance higher education s partnership with governments on both state and national levels has generated far more benefits than it has administrative

burdens However because external influences on academic governance should not be allowed to overwhelm internal governance structures colleges are urged to strengthen self regulation capacity to take leadership roles and to revitalize their historic governance tradition The survey questionnaire is included together with a list of participating institutions and agencies SW reprinted from ERIC

Governing Academic Organizations Gary L. Riley,J. Victor Baldrige,1977 Governing Academic Organizations discusses internal governance but places it within the context of environmental policies issues and trends Included are articles appearing for the first time in published form several written especially for this book and some classics in the field fundamental to understanding the characteristics of academic organizations Book Jacket

An Anthropology of Academic Governance and Institutional Democracy Murray J. Leaf,2018-07-26 This anthropological study of university governance organizations has four main purposes It aims to describe the principles of effective faculty governance organizations and shared governance to help mobilize opposition to a large and extremely well funded system of political attacks aimed at destroying faculty governance organizations to demonstrate the value of the theory of human social organizations and to enable universities to become more effective in generating the intellectual advances we must make in

order to solve the current global crisis of sustainability and political instability Political democracy depends on an educated public and academic democracy is integral to producing such knowledge *Faculty in Governance* Robert Birnbaum,1991

The SAGE Encyclopedia of Higher Education Miriam E. David, Marilyn J. Amey, 2020-05-21 Higher Education is in a state of ferment People are seriously discussing whether the medieval ideal of the university as being excellent in all areas makes sense today given the number of universities that we have in the world Student fees are changing the orientation of students to the system The high rate of non repayment of fees in the UK is provoking difficult questions about whether the current system of funding makes sense There are disputes about the ratio of research to teaching and further discussions about the international delivery of courses **Administrative Leadership** Cameron Fincher, 2003-11-03 Administrative Leadership interprets leadership in higher education as the administration governance and management of contemporary colleges and universities in America The effectiveness of administration leadership is regarded as a function of personal qualities situational demands group or organizational characteristics and cultural conditions Author Cameron Fincher presents a detailed rationale for administrative performance or accomplishments in concerted efforts to make decisions solve problems resolve conflicts and gain consensus in the administration and governance of institutions of higher education

Managing the Digital University Łukasz Sułkowski, 2023-03-02 The reflection on university management is based on the question about the shape of universities of the future Civic responsible sustainable virtual digital and many other universities can be mentioned among the concepts present in the literature All these names describe an important distinctive feature of a university which will gain more and more importance in the future However given the fundamental importance of the radical change taking place it seems that the most appropriate name reflecting the essence of the emerging new formation is digital university This is because of the importance of digital transformation which has been developing for several decades bringing deep and multidirectional changes in the areas of technology economy society and culture It is a disruptive civilizational transition and although stretched over many decades it is revolutionary in nature significantly changing our lives in the Anthropocene The book has three cognitive and pragmatic objectives to provide a new perspective on the changing academic organization and management to reflect on higher education management concepts and methods and to present an overview of university management governance and leadership useful from the perspective of academic managers and other stakeholders The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
