Mata-McMahon,Mukhlis Abu Bakar,Cornelia Roux,2021-07-15 How do children determine which identity becomes paramount as they grow into adolescence and early adulthood Which identity results in patterns of behaviour as they develop To whom or to which group do they feel a sense of belonging How might children adolescents and young adults negotiate the gap between their own sense of identity and the values promoted by external influences The contributors explore the impact of

globalization and pluralism on the way most children and adolescents grow into early adulthood They look at the influences of media and technology that can be felt within the living spaces of their homes competing with the religious and cultural influences of family and community and consider the ways many children and adolescents have developed multiple and virtual identities which help them to respond to different circumstances and contexts They discuss the ways that many children find themselves in a perpetual state of shifting identities without ever being firmly grounded in one potentially leading to tension and confusion particularly when there is conflict between one identity and another This can result in increased anxiety and diminished self esteem This book explores how parents educators and social and health workers might have a raised awareness of the issues generated by plural identities and the overpowering human need to belong so that they can address associated issues and nurture a sense of wholeness in children and adolescents as they grow into early adulthood

narrowly focused background material Beyond these pieces readers are in the hands of real world authors and their difficult lexically diffuse and allusion filled creations Journal articles and book excerpts predominate but Mastering Academic Reading also offers a book review and a government pamphlet as well Since one aspect of reading practice builds on others the units are laid out in tiers not in sections Each unit has been organized into three tiers In general there is one reading per tier although the first tier in Unit 3 contains two passages both necessary to provide conceptual background for the other two tiers Each reading is 3 500 5 000 words The book focuses on the three primary goals of academic reading reading to learn reading to integrate write and critique texts and reading for basic comprehension
