Contemporary Italy Donald Sassoon, 2014-06-03 This popular text provides a detailed study of the social and economic structures that underpin the Italian political system. Thoroughly updated, the second edition covers the 1994 election results and the rise of Berlusconi's Forza Italia, the impact of European integration and the anti-corruption campaign of the early 90s.

Contesting Higher Education Donatella della Porta, Lorenzo Cini, César Guzmán-Concha, 2020-06-03 Using new research on higher education in the UK, Canada, Chile and Italy, this rigorous comparative study investigates key episodes of student protests against neoliberal policies and practices in today's universities. As well as examining origins and outcomes of higher education reforms, the authors set these waves of demonstrations in the wider contexts of student movements, political activism and social issues including inequality and civil rights. Offering sophisticated new theoretical arguments based on fascinating empirical work, the insights and conclusions revealed in this original study are of value to anyone with an interest in social, political and related studies.
