According To Queeney Beryl Bainbridge,2010-12-02 A stellar literary event written with panache and an enviable economy the biggest risk of her literary life Margaret Atwood According to Queeney is a masterly evocation of the last years of Dr Johnson arguably Britain s greatest Man of Letters The time is the 1770s and 1780s and Johnson having completed his life s major work he compiled the first ever Dictionary of the English Language is running an increasingly chaotic life Torn between his strict morality and his undeclared passion for Mrs Thrale the wife of an old friend According to Queeney reveals one of Britain s most wonderful characters in all his wit and glory Above all though this is a story of love and friendship and brilliantly narrated by Queeney Mrs Thrale s daughter looking back over her life **According to Queeney by Beryl**

houses functioned as a vehicle for the dispersion of works which publicly mirrored a private society in the process of transformation. The focus on this change and the circulation of new ideas on taste and polite society as well as on culture and literature can be found in the continual intertwining between the public and the private spheres of society. The aim of the first part of this collection of original unpublished essays by young international scholars is to investigate the dynamics of these overlapping spheres through new readings of eighteenth century literary works which not only analysed the mechanisms of the private and public spheres but also highlighted some remarkable cultural features such as clothing and fashion, gossip and gender issues. As suggested by the title, the second part of the collection will expand on the principal idea of intersections in eighteenth century English literature from the intersections linking the private and public spheres of British society to those between eighteenth century works within the British literary canon, taking into account the influence of European thought. The purpose of the second group of essays is thus that of offering fresh perspectives and a re-evaluation of literary and cultural reciprocal exchanges in order to better locate or re-locate canonical works and authors within the eighteenth century literary tradition.
