Recruitment and Retention of Race Group Students in American Higher Education C. Dwayne Wilson,Bernard
Lubin,Barbara Below,2008-01-30 Challenges to American college and university affirmative action and racial and ethnic
diversity initiatives were resolved by the Supreme Court in its 2003 decisions in the University of Michigan case Those
decisions affirmed as a compelling interest the attainment of racially diverse student bodies in higher education The Court s
decisions and the predicted increases over the next decade in the numbers of race and ethnic group high school graduates
have reinforced and in some cases strengthened the resolve of college and university officials that the positive returns from
affirmative action and racial diversity are real and worth pursuing The purpose of this annotated bibliography is to provide a
record of the research scholarship and programs for recruitment and retention of African American Alaskan Native American
Indian Asian American Latino and Pacific Islander students at the college and university levels It is structured to facilitate
access by college and university administrators professionals consultants researchers and students who require information
on recruitment and retention to aid in their decision making about strategy related issues and scientific and creative
processes in the area This bibliography covers more than forty years of literature and contains 969 citations organized into
five chapters *Courts and Judicial Policymaking* Christopher P. Banks,David M. O'Brien,2008 For courses in courts and the
judicial process and law and society The scope of its coverage and its high academic quality makes it attractive for graduate
courses as well Christopher P Banks and David M O Brien wrote *Courts and Judicial Policymaking* to fill a need for a
comprehensive textbook on law and judicial policymaking The text provides a fresh perspective on the contemporary politics
of law courts the legal profession and judicial policymaking often with an underlying comparative judicial process perspective
It covers four distinct areas 1 What is law 2 How are courts organized and how do they work procedurally 3 What influences
court access and ultimately judicial decision making and 4 How do courts make policy and how is judicial authority
constrained It has relevant and contemporary analyses of literature from the political science and legal fields and analyses
from scholars who argue from the quantitative attitudinal and strategic models and the qualitative new institutionalism
perspectives It contains up to date charts and graphs on the organization of courts and trends in litigation caseloads and
opinion writing and it is appropriate for undergraduate and graduate classes Feedback includes The book is extremely well
written and organized one of the smoothest textbooks I have read in terms of readability The tables provided are a major
selling point for the book nicely summarize complex and often confusing materials Roger Handberg University of Central
Florida The best feature of this manuscript is its thorough coverage of the subject matter as well as the in depth analysis of
specific topics and questions addressed in the boxed material and sidebars Adding a comparative dimension by looking at the
judicial systems and procedures of other countries is also quite novel Susan Mezey Loyola University Chicago *Science
