## **Aby Warburg:**

**Obsessed by Art** Francesca Cernia Slovin, 2006-11-28 Aby Warburg 1896-1929 was the scion of M M Warburg CO the German Jewish banking empire At thirteen he made a pact with the youngest brother by which he granted his birthright in exchange for the promise that the sibling would purchase for him every book he would desire It is thus that the famous Warburg Library was born During a long trip in Italy as a young man Warburg falls in love with Italian Renaissance and starts to accumulate all related texts Once back home in Hamburg he further develops the nucleus of the library with volumes concerning unique and original disciplines from Magic to Astrology from Alchemy to Primitive Civilizations Placed in a newly built perfectly round library Warburg organizes the order of the volumes following his theory of migration of symbols Thanks to this visionary and revolutionary approach the History of Art acquires a new dimension and a new tool of interpretation through what would ultimately be called Iconology With the explosion of the First World War Warburg's mental equilibrium collapses and he is hospitalized in a Swiss psychiatric institution where he will remain for more than ten years It is from here that the fascinating narrative of Francesca Cernia Slovin starts looking back at Aby's life in a compelling reconstruction as a flash back The second part of the book continues when Warburg's disciple Fritz Saxl takes his place as director of what had become the famous Warburg Institute After Aby's death with the rise of Hitler the Nazis threaten to burn down the library On the night of December 12 1933 with the help of a few assistants Saxl with an heroic effort transported the entire library of over a hundred thousand volumes onto two small steamships and flees to London Thanks to these few brave men and the hospitality of Lord Courtauld today the Warburg Institute is a holy place of pilgrimage for every Art historian With more than three hundred thousand titles and two hundred thousand periodicals the library contains forty percent of items missing at the British Library

Hönes,2024-06-05 An intimate biography of an eminent historian of art and culture exploring his life both within and away from the academy *Tangled Paths* tells the life story of Aby Warburg 1866 1929 one of the most influential historians of art and culture of the twentieth century It also tells the story of a man who throughout his life struggled to assert his place in the world Charting Warburg s many projects and identities groundbreaking historian public intellectual ethnographer shrewd academic administrator and founder of a library the book explores not only the vagaries of an academic career but also the personal demons of a man who relentlessly sought to live up to his own expectations In this biography the first in English in over fifty years Hans C H nes presents an evocative and richly detailed portrait of Warburg s personality and career and of his attempts to make sense of the tangled paths of his life **Aby Warburg and the Image in Motion** Philippe-Alain Michaud,2024-09-10 A compelling analysis of the work of art historian Aby Warburg and its radical implications for the study of visual images Aby Warburg 1866 1929 is best known as the originator of the discipline of iconology and as the founder of the institute that bears his name His followers included some of the celebrated art historians of the twentieth century such as Erwin Panofsky Edgar Wind and Fritz Saxl But his heirs developed for the most part a domesticated iconology based on the decipherment and interpretation of symbolic material As Philippe Alain Michaud

demonstrates in this important book Warburg's project was remote from any positivist or neo-Kantian ambitions. Nourished on the work of Friedrich Nietzsche and Jacob Burckhardt, Warburg fashioned a critical iconology to reveal the irrationality of the image in Western culture. Opposing the grand teleological narratives of art inaugurated by Giorgio Vasari, Warburg's method operated through historical anachronisms and discontinuities. Using procedures of montage collision, he brought together pagan artifacts with masterpieces of Florentine Renaissance art, the astrology of the ancient Near East with the Lutheran Reformation, Mannerist festivals with the sacred dances of Native Americans. Michaud insists that for Warburg, the practice of art history was not only the recognition of the radical heterogeneity of objects but the discovery within the art work itself of lines of fracture, contradictions, tensions, and the energies of magic, empathy, totemism, and animism. Michaud provides us with a book that not only is about Warburg but also extends his intuitions and discoveries into analyses of other categories of imagery like the daguerreotype, the chronophotography of Étienne-Jules Marey, early cinema, and the dances of Loie Fuller. This edition also includes a foreword by Georges Didi-Huberman and texts by Warburg not previously translated into English. Chosen as one of the best art books of 2004 by the Washington Post and Bookforum.

**Between Tradition and Modernity** Mark A. Russell, 2007-12-01

Aby Warburg (1866-1929), founder of the Warburg Institute, was one of the most influential cultural historians of the twentieth century. Focusing on the period 1896-1918, this is the first in-depth, book-length study of his response to German political, social, and cultural modernism. It analyses Warburg's response to the effects of these phenomena through a study of his involvement with the creation of some of the most important public artworks in Germany. Using a wide array of archival sources, including many of his unpublished working papers and much of his correspondence, the author demonstrates that Warburg's thinking on contemporary art was the product of two important influences: his engagement with Hamburg's civic affairs and his affinity with influential reform movements seeking a greater role for the middle classes in the political, social, and cultural leadership of the nation. Thus, a lively picture of Hamburg's cultural life emerges as it responded to artistic modernism, animated by private initiative and public discourse and charged with debate.

Studies on Aby Warburg, Fritz Saxl and Gertrud Bing Dorothea McEwan, 2023-03-21

Originally published in German, Italian, and French, these articles have been translated into English for the first time by the author, the former archivist of The Warburg Institute, London. Aby Warburg's research and writings centred on images, their origins and metamorphoses, and their explanations and interpretations. The articles include discussions of Warburg's academic work with colleagues such as James Loeb, the American Hellenist and philanthropist and founder of the Loeb Classical Library, and with Josef Strzygowski, the Polish-Austrian art historian of the Vienna School of Art History. Further articles include notes on Warburg's 'Serpent Ritual' lecture of 1923, his politico-cultural initiative in 1914-1915, his work on caricature, in particular the Struwwelpeter topic, and discussions on the topic of Judaica. The Viennese art historian Fritz Saxl became his trusted friend and collaborator, helping to gather Warburg's large collection of books and photographs into the foundation of an academic

institution in Hamburg in the 1920s and then for a second time in London in the 1930s The Warburg Institute has become one of the world's leading centres of intellectual history CS 1109 *Mythistory* Joseph Mali, 2003-05 Ever since Herodotus declared in *Histories* that to preserve the memories of the great achievements of the Greeks and other nations he would count on their own stories historians have debated whether and how they should deal with myth Most have sided with Thucydides who denounced myth as unscientific and banished it from historiography In *Mythistory* Joseph Mali revives this oldest controversy in historiography Contesting the conventional opposition between myth and history Mali advocates instead for a historiography that reconciles the two and recognizes the crucial role that myth plays in the construction of personal and communal identities The task of historiography he argues is to illuminate not eliminate these fictions by showing how they have passed into and shaped historical reality Drawing on the works of modern theorists and artists of myth such as Nietzsche and Wittgenstein Joyce and Eliot Mali redefines modern historiography and relates it to the older notion and tradition of mythistory Tracing the origins and transformations of this historiographical tradition from the ancient world to the modern Mali shows how Livy and Machiavelli sought to recover true history from uncertain myth and how Vico and Michelet then reversed this pattern of inquiry seeking instead to recover a deeper and truer myth from uncertain history In the heart of *Mythistory* Mali turns his attention to four thinkers who rediscovered myth in and for modern cultural history Jacob Burckhardt Aby Warburg Ernst Kantorowicz and Walter Benjamin His elaboration of the different biographical and historiographical routes by which all four sought to account for the persistence and significance of myth in Western civilization opens up new perspectives for an alternative intellectual history of modernity one that may better explain the proliferation of mythic imageries of redemption in our secular all too secular times

**Acrobatic Modernism from the Avant-Garde to Prehistory** Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity's restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity recalibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound's slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between

futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both

Aby Warburg: Bilderatlas MNEMOSYNE - The Original Aby Warburg,Roberto Ohrt,Axel Heil,2020-09 From 1925 until his death in 1929 the Hamburg based art and cultural scholar Aby Warburg worked on his Mnemosyne Atlas a volume of plates that has in the meanwhile taken on mythical status in the study of modern art and visual studies With this project Warburg created a visual reference system that was far ahead of its time Roberto Ohrt and Axel Heil have now undertaken the task of finding all of the individual pictures from the atlas and displaying these reproductions of artworks from the Middle East European antiquity and the Renaissance in the same way that Warburg himself showed them on panels hung with black fabric This folio volume and the exhibition in Haus der Kulturen der Welt Berlin succeed in restoring Warburg's vanished legacy something that researchers have long considered impossible

**Memory, Metaphor, and Aby Warburg's Atlas of Images** Christopher D. Johnson,2012-07-26 The work of German cultural theorist and art historian Aby Warburg 1866 1929 has had a lasting effect on how we think about images This book is the first in English to focus on his last project the encyclopedic Atlas of Images Mnemosyne Begun in earnest in 1927 and left unfinished at the time of Warburg's death in 1929 the Atlas consisted of sixty three large wooden panels covered with black cloth On these panels Warburg carefully intuitively arranged some thousand black and white photographs of classical and Renaissance art objects as well as of astrological and astronomical images ranging from ancient Babylon to Weimar Germany Here and there he also included maps manuscript pages and contemporary images taken from newspapers Trying through these constellations of images to make visible the many polarities that fueled antiquity's afterlife Warburg envisioned the Atlas as a vital form of metaphoric thought While the nondiscursive frequently digressive character of the Atlas complicates any linear narrative of its themes and contents Christopher D Johnson traces several thematic sequences in the panels By drawing on Warburg's published and unpublished writings and by attending to Warburg's cardinal idea that pathos formulas structure the West's cultural memory Johnson maps numerous tensions between word and image in the Atlas In addition to examining the work itself he considers the literary philosophical and intellectual historical implications of the Atlas As Johnson demonstrates the Atlas is not simply the culmination of Warburg's lifelong study of Renaissance culture but the ultimate expression of his now literal now metaphoric search for syncretic solutions to the urgent problems posed by the history of art and culture

**Art, Agency and Living Presence**  
Caroline van Eck, 2015-03-10 Throughout history and all over the world viewers have treated works of art as if they are living beings speaking to them falling in love with them kissing or beating them Although over the past 20 years the catalogue of individual cases of such behavior towards art has increased immensely there are few attempts at formulating a theoretical account of them or writing the history of how such responses were considered defined or understood That is what this book sets out to do to reconstruct some crucial chapters in the history of thought about such reflections in Western Europe and to offer some building blocks towards a theoretical account of such responses drawing on the work of Aby Warburg and Alfred Gell
