

# A Parent Guide to the Accelerated Reader Program

## What is the Accelerated Reader Program?

Accelerated Reader is a computer program that allows you to help monitor your child's progress in reading books at his or her appropriate reading level.

### 1. Read the Book

After your child has selected her book, she should read independently at home and do a short quiz at school. This will help her learn to understand and enjoy the book.

### 2. Track the Progress

The program will track the books that your child reads, along with their quiz scores and test points.

The information is then used by teachers to monitor children's progress and offer additional support if and when needed. The idea of the program is to help children to develop their reading skills at their own pace.

## Benefits of the Accelerated Reader Program?

Encourage children to read regularly, making books and reading fun through their own skills.

Help to read with the parent and with the teacher's records and to encourage a school.

Monitor an individual's progress through helping them build confidence in themselves.

Monitor the progress of the program and points.

## How can I help my child at home?

Read at least 20 minutes for reading to help comprehension skills. The more children read, the better they will get at it.

Read all books your child can read. The more the better so that you can track for your child's progress. You can also communicate with the teacher.

Read together and let your child explain the book to you. This will help the child understand the content.

Ask your child questions about the book and praise them for "What is your favorite character?" "How do you think the story will end?" "What do you think the author is trying to say?"

Encourage and encourage them to read.

Encourage your child to read for fun and provide additional support and help if they struggle to help continue their own.

Monitor the progress of the program and points.

## Concerns and Standings

What should I do if my child asks why books to get more points?

Reading books that are not within the reading ability may seem appealing to your child as they will be able to read the books quickly and more easily.

The more that they read, the more the comprehension questions in the program become. It is important to your child's reading that they are able to understand the books and not just to get more points.

### Why reading is important?

Reading helps your child to learn and to understand the world around them. It is a key skill for success in school and in life.
