

Acento Extranjero

Walter George Bradley

Acento Extranjero:

Teoría y análisis de la entonación Francisco José Cantero Serena, Francisco José Cantero, 2002 La entonación es posiblemente el fenómeno lingüístico más influyente en la comunicación oral. Sin embargo, su estudio no siempre se ha considerado prioritario. Ello se debe a que no se han resuelto los problemas teóricos planteados por el carácter tonal de la entonación, difícilmente segmentable y ligada íntimamente a la expresión de la actitud y la emoción del hablante. Para el lector especializado, este trabajo ofrece una interpretación fonológica de los fenómenos tonales de la lengua castellana: acento, ritmo y entonación, plenamente integrada en la teoría fonológica estructural, entendiendo esta como la fonología no dependiente de otros niveles de análisis lingüístico. El método de análisis de la entonación que se propone ha demostrado ser útil y versátil en muy diversas aplicaciones científicas, didácticas y clínicas, por cuanto permite salvar buena parte de las dificultades que implica el carácter suprasegmental del fenómeno. Para el lector no especializado y el estudiante de la lengua en general, el libro permite hacerse una idea de cuáles son los temas de estudio que ofrece la entonación, cómo han sido tratados teóricamente a lo largo del siglo XX y cómo puede afrontarse su investigación. Este libro puede usarse por tanto como una obra de introducción general y como un tratado especializado de análisis.

[Pronunciación de la lengua Española para anglohablantes](#) Richard E. Morris, 2009-11-15 Written entirely in Spanish, the book is designed to help native English speaking students improve their Spanish pronunciation. Appropriate for those with two years of Spanish on up, the text is ideal for lower level classes to catch bad speaking habits before they set in. For upper level classes, the book can serve as a tool to refine pronunciation skills. The book is designed to be completed in one semester and covers specific pronunciation issues common to English speakers and solutions to these problems. Side by side English and Spanish word comparisons are made to allow the student to first pronounce the English and then the Spanish words, providing ear training and articulating exercises. A variety of oral exercises are included which can be practiced in groups. Additional resources including audio pronunciation files for select textbook exercises and a PDF only instructor's manual are available at www.hackettpublishing.com.

[Entonaciones del español](#) Francisco José Cantero Serena, Dolors Font Rotchés, 2021-06-01 El perfil melódico de cada persona, su acento, no es simplemente una característica más o menos exacta o molesta, sino que revela su identidad como hablante y permite, en ocasiones, dificultar la propia conexión con sus interlocutores; puede ser el muro que impide el paso a la comunicación humana o la puerta que abre la conversación. En el presente volumen se reúne una serie de investigaciones que exploran dos de los aspectos menos estudiados de la entonación del español: El acento dialectal del español peninsular, concretado en nueve variedades: Asturias, Navarra, País Vasco, Castilla y León, Madrid, Andalucía, Castilla-La Mancha, Murcia, Extremadura y Canarias. El acento extranjero ejemplificado con los rasgos característicos de los italianos, los brasileños, los suecos y los húngaros hablando español a los que añadimos un análisis del español hablado por catalanes, que si bien no puede considerarse un acento extranjero, tampoco es genuinamente dialectal. La descripción del perfil melódico de todas estas variedades ayuda a

comprender las características del habla en los diversos acentos dialectales o extranjeros cuyas implicaciones didácticas son muy claras Identificar las características del acento dialectal de cada variedad nos dar pautas para comprender los fenómenos de afinidad y los malentendidos que la entonación proyecta entre las distintas comunidades de habla Describir el acento extranjero nos permite comprender los rasgos que impiden o dificultan la inteligibilidad así como los que provocan malentendidos con los nativos o proyectan una imagen negativa o indeseable En conjunto la obra contribuye a comprender las diferencias profundas que muestran los distintos hablantes de español nativos o extranjeros que los profesores deben tratar también de manera diferenciada
