CLAN GROUND

THE SECOND BOOK OF THE NAMED

CLAN GROUND

THE SECOND BOOK OF THE NAMED

"This is a page-turner—full of suspense and action—that will be enthusiastically welcomed by Ratha's admirers."

—*Booklist*

When Ratha admits an Un-Named stranger to the clan, he brings a change as great as Ratha's taming of fire. Does the orange-eyed newcomer understand the power of Ratha's fire-creature—and the hearts of her people—better than she does? Worship and control of fire may strengthen the Named and expand their domain, yet subjugation to the Red Tongue's tyranny threatens to diminish them. The herding teacher, Thakur, offers a gentler alternative, but dare Ratha try it? Her choice will determine the future of the clan—and her own place in it.

has been replaced since the arrival of the Europeans by a vigorous development of moka a competitive ceremonial exchange of wealth objects The exchanges of pigs shells and other valuables are interpreted as acting as a bond between groups and as a means whereby individuals notably the big men can maximize their status Professor Strathern analyses the ways in which competition between big men actually takes place and the effects of this competition on the overall political system

Customary Land Tenure and Registration in Australia and Papua New Guinea James F. Weiner, Katie

Glaskin, 2007-06-01 The main theme of this volume is a discussion of the ways in which legal mechanisms such as the Land Groups Incorporation Act 1974 in PNG and the Native Title Act 1993 in Australia do not as they purport serve merely to identify and register already existing customary indigenous landowning groups in these countries Because the legislation is an integral part of the way in which indigenous people are defined and managed in relation to the State it serves to elicit particular responses in landowner organisation and self identification on the part of indigenous people These pieces of legislation actively contour the progressive evolution of landowner social territorial and political organisation at all levels in these nation states The contributors to this volume provide in depth anthropological case studies of social structural and cultural transformations engendered by the confrontation between states developers and indigenous communities over rights to customarily owned land

The Quest for the Good Life in Precarious Times Chris

Gregory, Jon Altman, 2018-04-01 The study of the quest for the good life and the morality and value it presupposes is not new To the contrary this is an ancient issue its intellectual history can be traced back to Aristotle In anthropology the study of morality and value has always been a central concern despite the claim of some scholars that the recent upsurge of interest in these issues is new What is novel is how scholars in many disciplines are posing the value question in new ways The global economic alignments of the present pose many political moral and theoretical questions but the central issue the essays in this collection address is how do relatively poor people of the Australia Pacific region survive in current precarious times In looking to answer this question contributors directly engage the values and concepts of their interlocutors At a time when understanding local implications of global processes is taking on new urgency these essays bring finely honed anthropological perspectives to matters of universal human concern they offer radical empirical critique based on intensive fieldwork that will be of great interest to those seeking to comprehend the bigger picture
