**Class Struggle and the Color Line** Paul Heideman, 2018-04-06 As Black oppression moves again to the forefront of American public life the history of radical approaches to combating racism has acquired renewed relevance Collecting for the first time source materials from a diverse array of writers and organizers this reader provides a new perspective on the complex history of revolutionary debates about fighting anti Black racism Contextual material from the editor places each contribution in its historical and political setting making this volume ideal for both scholars and activists Paul Heideman's book reconstructs for us the long flowering of anti racist thought and organizing on the American Left and the central role played by Black Socialists in advancing a theory and practice of human liberation Class struggle and anti racism are two sides of the same coin in this powerful collection At a time when the emancipation of oppressed and working class people remain goals of progressives everywhere Heideman's book provides us a map to a past that can help us get free Bill V Mullen Professor of American Studies Purdue University Should white workers pursue racial supremacy to make America great again Ignore race by practicing color blindness and dwelling on labor and economic issues alone Or challenge oppression bigotry and exploitation in all their forms wherever and whenever they appear These strategies may sound like ones from our own time but they were live options for the left a century ago We are all in Paul Heideman's debt for compiling **Class Struggle and the Color Line** a set of rare original sources that remind us of this In the absence of sound social theory disgusting racism can be passed off as populist rebellion Don't let it happen again Christopher Phelps co author **Radicals in America The U S Left since the Second World War** Paul Heideman is a PhD student in Sociology at New York University and is a frequent contributor to Jacobin and the Historical Materialism Conference

**Class Struggle and the New Deal** Rhonda F. Levine, 1988 In this reassessment of New Deal policymaking Rhonda Levine argues that the major constraints upon and catalysts for FDR's policies were rooted in class conflict Countering neo Marxist and state centred theories which focus on administrative and bureaucratic structures she contends that too little attention has been paid to the effect of class struggle

**The Class Struggle in the Ancient Greek World** G. E. M. Ste. Croix, 2025-07-01 The **Class Struggle in the Ancient Greek World** is an original and provocative reconstruction of 1 400 years of classical antiquity Sharply written it is a major intervention in Marxist theories of class seeking to explain and illustrate the value of Marx's general analysis of society to ancient Greek studies G E M de Ste Croix makes slavery central to the achievements of the Greek city states and wider classical civilisation He traces the social origins of Athenian democracy and advances an innovative explanation for the decline and fall of the Roman Empire Comparing the late Roman political system to a vampire bat Ste Croix argues that serfdom and a tightening fiscal screw left the peasant masses indifferent to the Empire's fate Widely reviewed and debated The **Class Struggle in the Ancient Greek World** was hailed by the *New York Review of Books* as the only work in a Western language that has ever attempted to tell the story of the greatest part of the ancient world with the interests of the lower

classes as its central theme     *The Class Struggle* ,1919     *The Class Struggle in Latin America* James Petras, Henry Veltmeyer, 2017-08-09 The Class Struggle in Latin America Making History Today analyses the political and economic dynamics of development in Latin America through the lens of class struggle Focusing in particular on Peru Paraguay Chile Colombia Argentina Brazil and Venezuela the book identifies how the shifts and changing dynamics of the class struggle have impacted on the rise demise and resurgence of neo liberal regimes in Latin America This innovative book offers a unique perspective on the evolving dynamics of class struggle engaging both the destructive forces of capitalist development and those seeking to consolidate the system and preserve the status quo alongside the efforts of popular resistance concerned with the destructive ravages of capitalism on humankind society and the global environment Using theoretical observations based on empirical and historical case studies this book argues that the class struggle remains intrinsically linked to the march of capitalist development At a time when post neo liberal regimes in Latin America are faltering this supplementary text provides a guide to the economic and political dynamics of capitalist development in the region which will be invaluable to students and researchers of international development anthropology and sociology as well as those with an interest in Latin American politics and development     [Class Struggle](#) Domenico Losurdo, 2016-10-06 Available for the first time in English this book examines and reinterprets class struggle within Marx and Engels thought As Losurdo argues class struggle is often misunderstood as exclusively the struggle of the poor against the rich of the humble against the powerful It is an interpretation that is dear to populism one that supposes a binary logic that closes its eyes to complexity and inclines towards the celebration of poverty as a place of moral excellence This book however shows the theory of class struggle is a general theory of social conflict Each time the most adverse social conflicts are intertwined in different ways A historical situation always emerges with specific and unique characteristics that necessitate serious examination free of schematic and biased analysis Only if it breaks away from populism can Marxism develop the ability to interpret and change the world     [Notes on the Class Struggle](#) Peter Edward Burrowes, 1904     **Marxism and the Class Struggle** Cliff Slaughter, 1975     *The Parallax View* Slavoj Žižek, 2009-02-13 In i e k s long awaited magnum opus he theorizes the parallax gap in the ontological the scientific and the political and rehabilitates dialectical materialism The Parallax View is Slavoj i e k s most substantial theoretical work to appear in many years i e k himself describes it as his magnum opus Parallax can be defined as the apparent displacement of an object caused by a change in observational position i e k is interested in the parallax gap separating two points between which no synthesis or mediation is possible linked by an impossible short circuit of levels that can never meet From this consideration of parallax i e k begins a rehabilitation of dialectical materialism Modes of parallax can be seen in different domains of today s theory from the wave particle duality in quantum physics to the parallax of the unconscious in Freudian psychoanalysis between interpretations of the formation of the unconscious and theories of drives In The Parallax View i e k with his usual astonishing erudition focuses on three main modes of parallax the ontological difference

the ultimate parallax that conditions our very access to reality the scientific parallax the irreducible gap between the phenomenal experience of reality and its scientific explanation which reaches its apogee in today's brain sciences according to which nobody is home in the skull just stacks of brain meat a condition i ek calls the unbearable lightness of being no one and the political parallax the social antagonism that allows for no common ground Between his discussions of these three modes i ek offers interludes that deal with more specific topics including an ethical act in a novel by Henry James and anti anti Semitism The Parallax View not only expands i ek's Lacanian Hegelian approach to new domains notably cognitive brain sciences but also provides the systematic exposition of the conceptual framework that underlies his entire work Philosophical and theological analysis detailed readings of literature cinema and music coexist with lively anecdotes and obscene jokes

Class Struggle on the Home Front G. Cassano,2009-11-27 Home Front examines the gendered exploitation of labor in the household from a postmodern Marxian perspective The authors of this volume use the anti foundationalist Marxian economic theories first formulated by Stephen Resnick and Richard Wolff to explore power domination and exploitation in the modern household **The Class Struggle** ,1918 **The Struggle for Existence** Walter Thomas Mills,1904 Labour Organization in Canada ,1926 **The ABC of Communism** Nikolaï Ivanovich Bukharin,Evgeniï Alekseevich Preobrazhenskiï,1927 **Elementary Economics** Fred Rogers Fairchild,Edgar Stevenson Furniss,Norman Sydney Buck,1930 *Report on Labour Organization in Canada* ,1926 **Annual Report on Labour Organization in Canada** ,1918 The Independent ,1906 *An Explanation and Criticism of the Doctrines and Proposals of Scientific Socialism* James Edward Le Rossignol,1921 Unity ,1907
