## **Comeback Wolves:**

*Comeback Wolves* Gary Wockner, Gregory McNamee, Sue Ellen Campbell, 2005 Delves into the spirit of the wolf dilemma through a collection of essays and poems from some of the Rocky Mountain region's most prolific writers. Authors such as Susan J. Tweit, Craig Childs, Pam Houston, John Nichols, Kent Nelson, Rick Bass, Stephen Trimble, and Laura Pritchett have contributed works specifically written for this compilation which creates a forum for writers to voice their opinions, hopes, and concerns for the reintroduction of wolves in Colorado. Forward by Mark Udall, U.S. Representative, Colorado's 2nd Congressional District.

**Animals and the Human Imagination** Aaron S. Gross, Anne Vallely, 2012-04-24 Human beings have long imagined their subjectivity, ethics, and ancestry with and through animals, yet not until the mid-twentieth century did contemporary thought reflect critically on animals' significance in human self-conception. Thinkers such as French philosopher Jacques Derrida, South African novelist J. M. Coetzee, and American theorist Donna Haraway have initiated rigorous inquiries into the question of the animal, now blossoming in a number of directions. It is no longer strange to say that if animals did not exist, we would have to invent them. This interdisciplinary and cross-cultural collection reflects the growth of animal studies as an independent field and the rise of animality as a critical lens through which to analyze society and culture on a par with race and gender. Essays consider the role of animals in the human imagination and the imagination of the human, the worldviews of indigenous peoples, animal human mythology in early modern China, and political uses of the animal in postcolonial India. They engage with the theoretical underpinnings of the animal protection movement, representations of animals in children's literature, depictions of animals in contemporary art, and the philosophical positioning of the animal from Aristotle to Derrida. The strength of this companion lies in its timeliness and contextual diversity, which makes it essential reading for students and researchers while further developing the parameters of the discipline.

The Last Wolf Jim Crumley, 2012-12-10 New and updated edition. In 1743, according to legend, the last wolf in Scotland was killed by a huntsman near Inverness. Long regarded in folk tales and history as a slayer of babies, a robber of graves, a devourer of battlefield dead, its extinction was widely celebrated. But since then, deer have multiplied, destroying the vegetation on which an array of wildlife depends, and it is clear that the entire Highland ecosystem has been thrown off balance by the elimination of a top predator. Jim Crumley believes the old stories are pure fiction, a distortion of reality which prevents people from thinking rationally about the huge benefits wolves could bring. With reference to wolves in other cultures and places, from the south west of England to Scandinavia and North America, this is a passionate polemic which argues for the return of the wolf to heal the damaged land.
