Any Teacher Can:

A Guide for Tales from a Teacher's Heart Sally J. Zepeda, 2008 Tales from a Teacher's Heart is a video series that tells heartwarming stories about students, schools, and teachers like you. From the lives of our authors, these true stories celebrate and explore all the ways teachers make a difference. Topics include the first year of teaching, teachers supporting teachers, connecting with students, and more. The Tales from a Teacher's Heart Study Guide includes text versions of the tales, discussion questions, strategies, applications, and musings on what it means to be a teacher. Use this book for professional development, self-reflection, starting and closing meetings, and study groups.

A Teacher's Inside Advice to Parents Robert Ward, 2016-10-20 Maximize your child's potential in ways that extend beyond academics alone. Gain a clearer, more cohesive relationship with their teachers. *A Teacher's Inside Advice to Parents: How Children Thrive with Leadership, Love, Laughter, and Learning* explains how to support and inspire all kids towards success and satisfaction. When parents and teachers share common goals and methods to meet a child's essential needs, this wraparound effect flows seamlessly from home to school and back again. This affirming, practical parenting approach provides expert insight for connecting with the classroom and influencing your child in four fundamental aspects: Leadership supplies the appropriate guidelines and routines your child requires in order to feel a soothing sense of security, structure, and stability; Love offers the attention, encouragement, and acceptance that create a strong bond of trust and open communication between you and your child; Laughter adds the joy, excitement, and adventure that embolden and assist in your child's personal exploration of creativity, purpose, and direction; Learning develops and reinforces your child's knowledge, wisdom, and skills vital for a contributing, self-sufficient life. The Four Ls of Parenting directly lead to the cooperation, confidence, contentment, and capabilities parents and teachers both strive to foster in every child, all accomplished with increased efficacy and delight while nurturing and educating the kids they care about so deeply.

Connecting the Dots in World History, A Teacher's Literacy Based Curriculum Chris Edwards, 2015-12-31 In his previously written articles and books, Chris Edwards has argued that Teaching should be considered a field that is separate from both the field of Education and from the content area fields. Teaching is a field which synthesizes content and method for classroom application. All of the other major intellectual fields have a canon of works which practitioners can learn from and add to, but Teaching does not. The *Connecting the Dots in World History: A Teacher's Literacy Based Curriculum* series changes this by showing how effective a teacher-generated curriculum can be. These books can inspire other teachers to create their own curriculums and inspire a change in the way that the public views teachers and teaching.
