Apple Blossoms:

Apple Blossoms James Albery, 1871 **Shenandoah Apple Blossom Festival** Helen Lee Fletcher, 1999 For many cities and small towns across the South agriculture has served traditionally as a backbone in shaping a community's economic and social identity. These annual harvests have provided both an environment of work and play for its citizens, allowing people to meet, labor, and celebrate a year's bountiful output. As our nation moved into the twentieth century, many of these events were formalized by town governments and committees into large-scale fairs and festivals, bringing adults and children from the surrounding areas into town to join in the celebrations. Winchester, with its long history in the apple-growing industry, chose to honor the beauty and bounty of the apple blossom, beginning in the year 1924 and continuing to the present, and has seen their festival grow in size, extravagance, and national acclaim. In this volume of over 150 images, many never before published, you will experience the festivities from its inception to the present, seeing the early floats, parades of children and firemen, the massive colorful and inventive pageants, and the men and women devoted to making the festival a success. Not simply a pictorial history, *Shenandoah Apple Blossom Festival* captures the spirit, optimism, and general excitement of the festival, which has kept the event popular for over 70 years with a wide variety of people, from the common person to those stars who served as grand marshals, such as Bob Hope, James Cagney, Ed Sullivan, and Bing Crosby.

Stebbins, Janet L. Comey, Martin Johnson Heade, Karen E. Quinn, 2000-01-01 Martin Johnson Heade was one of the most significant American painters of the nineteenth century, creator of portraits, history and genre pictures, still lifes, ornithological studies, landscapes, and marines, and his own unique orchid and hummingbird compositions. This book brings a perspective to Heade and his works, presenting him as one of the most original and productive painters of his time. Theodore Stebbins builds on his acclaimed 1975 study of Heade, drawing on several newly discovered collections of Heade's letters and the painter's own Brazilian journal. Stebbins tells of Heade's training and early career as an itinerant portraitist and discusses his move to New York, where, under the influence of Frederic E. Church, he began painting landscapes and seascapes. He examines Heade's relationships with patrons and dealers, writers, and scientists, and he sheds new light on Heade's trips to Brazil, the Central American tropics, and to London. And he describes Heade's move to Florida in 1883, which marked not his retirement but a final period of creativity that lasted until his death in 1904. The book includes not only an examination of Heade's life and works but also reproductions of all his 620 known paintings, including nearly 250 that have been discovered since 1975. Yearbook USA.
