Tedesco**

Dark Seeker:

Dark Seeker K. W. Jeter, 1991 *Dark Seeker* Taryn Browning, 2011-09-01 For 17 year old Seeker Janie Grey ridding the Baltimore streets of the undead is an inherited duty passed down from her Cherokee ancestors Seeker Training Lesson 1 Never trust the undead After her father s tragic death Janie creates her own life lesson Love isn t worth the risk Both lessons are easy to follow until she encounters the flawed Kai Sterdam At first she believes he is the hybrid she is trained to hunt But when he has human traits she determines she doesn t know what he is As Janie s intrigue over who Kai is pushes her deeper into his mysterious past she discovers a shocking truth that is even more harrowing than the evil they are up against It s a secret Kai wants to keep hidden especially from Janie *Screening the Nonhuman* Amber E. George, J.L. Schatz, 2016-04-27 *Screening the Nonhuman* draws connections between how animals represented on screen translate into reality In doing so the book demonstrates that consuming media is not a neutral act but rather a political one The images humans consume have real world consequences for how animals are treated as actors as pets and in nature The contributors propose that altering the representations of animals can change the way humans relate to non humans Our hope is for humans to generate more ethical relationships with non humans ultimately mediating reality both in terms of fiction and non fiction To achieve this end film television advertisements and social media are analyzed through an intersectional lens But the book doesn t stop here Each author creates counter representational strategies that promise to unweave the assumptions that have led to the mistreatment of humans and non humans alike ***The Fantastic Made Visible*** Matthew Wilhelm Kapell, Ace G. Pilkington, 2015-05-01 Fantasy and science fiction began in print and from the first films to the latest blockbusters print stories have provided the inspirations the ideas and in some cases the detailed blueprints *Adaption Studies* has long been an area of intense debate in literature and film studies but no single work has ever approached fantasy and science fiction texts as unique and important areas of inquiry by themselves *The Fantastic Made Visible* with 16 fresh essays is the first book to do exactly that From the earliest adaptations of Jules Verne Robert A Heinlein and Shakespeare to recent films based on *The Hobbit* *Planet of the Apes* and *The Hunger Games* this book offers a wide range of critical approaches and films from around the world *The Supernatural Revamped* Barbara Brodman, James E. Doan, 2016-04-20 This book is the logical continuation of a series of collected essays examining the origins and evolution of myths and legends of the supernatural in Western and non Western tradition and popular culture The first two volumes of the series *The Universal Vampire Origins and Evolution of a Legend* Fairleigh Dickinson University Press 2013 and *Images of the Modern Vampire The Hip and the Atavistic* Fairleigh Dickinson University Press 2013 focused on the vampire legend The essays in this collection expand that scope to include a multicultural and multigeneric discussion of a pantheon of supernatural creatures who interact and cross species specific boundaries with ease Angels and demons are discussed from the perspective of supernatural allegory angelic ethics and supernatural heredity and genetics Fairies sorcerers witches and werewolves are viewed from the perspectives of popular

nightmare tales depictions of race and ethnicity popular public discourse and cinematic imagery Discussions of the undead and still dead include images of death messengers and draugar zombies and vampires in literature popular media and Japanese anime

The Afterlife in Popular Culture Kevin O'Neill, 2022-06-17 The Afterlife in Popular Culture Heaven Hell and the Underworld in the American Imagination gives students a fresh look at how Americans view the afterlife helping readers understand how it is depicted in popular culture What happens to us when we die The book seeks to explore how that question has been answered in American popular culture It begins with five framing essays that provide historical and intellectual background on ideas about the afterlife in Western culture These essays are followed by more than 100 entries each focusing on specific cultural products or authors that feature the afterlife front and center Entry topics include novels film television shows plays works of nonfiction graphic novels and more all of which address some aspect of what may await us after our passing This book is unique in marrying a historical overview of the afterlife with detailed analyses of particular cultural products such as films and novels In addition it covers these topics in nonspecialist language written with a student audience in mind The book provides historical context for contemporary depictions of the afterlife addressed in the entries which deal specifically with work produced in the 20th and 21st centuries

Screening Images of American Masculinity in the Age of Postfeminism Elizabeth Abele,, John A. Gronbeck-Tedesco, 2015-12-03 This collection of essays presents a sampling of film and television texts interrogating images of U S masculinity Rather than using postfeminist as a definition of contemporary feminism this collection uses the term to designate the period from the late 1980s on as a point when feminist thought gradually became more mainstream The movies and TV series examined here have achieved a level of sustained attention from critical acclaim to mass appeal to cult status Instead of beginning with a set hypothesis on the effect of the feminist movement on images of masculinity on film and television these chapters represent a range of responses that demonstrate how the conversations within these texts about American masculinity are often open ended allowing both male characters and male viewers a wider range of options Defining the relationship between U S masculinity and American feminist movements of the twentieth century is a complex undertaking The essays collected for this volume engage prominent film and television texts that directly interrogate images of U S masculinity that have appeared since second wave feminism The contributors have chosen textual examples whose protagonists actively struggle with the conflicting messages about masculinity These protagonists are more often works in progress acknowledging the limits of their negotiations and self actualization These chapters also cover a wide range of genres and decades from action and fantasy to dramas and romantic comedy from the late 1970s to today Taken together the chapters of Screening Images of American Masculinity in the Age of Postfeminism interrogate the possible screened in popular movies and television series confronting the multiple and competing visions of masculinity not after or beyond feminism but rather in its very wake
