collapse and cause an obstruction a blockage which traps air inside the lungs Too much air trapped in the lungs can give some patients a barrel chested appearance Also because there are fewer alveoli less oxygen will be able to move into the bloodstream Over 3 million people in the United States have been diagnosed with emphysema Over 11 million Americans have COPD Emphysema is most common in men between the ages of 50 and 70 GET YOUR COPY TODAY BY SCROLLING UP AND CLICKING BUY NOW TO GET YOUR COPY TODAY
