Almayer's Folly

JOSEPH CONRAD

Set in the remote, eastern settlement of Sambir on the river Pantai, somewhere in Malaysia, *Almayer's Folly* is a stirring romance involving such traditional elements as forbidden love, exotic travel, pirates, hidden treasure, adventure and mysterious political intrigue. Yet Conrad consistently subverts convention, undermining the popular perceptions of his day. In this, his first novel, everything is double-edged, and aptly, Conrad's title too has a *double-entendre*, suggesting the sombre themes that are central to this powerful tale and foreshadow his later acclaimed masterpieces.

Almayers Folly Wordsworth Collection:

Granular Modernism Beci Carver, 2014-11-27 Granular Modernism understands the way that some Modernist texts put themselves together as a way of pulling themselves apart In this volume Beci Carver offers a new way of reading Modernist novels and poems by drawing attention to the anomalies that make them difficult to summarise or simplify Carver proposes that rather than trying to find the shapes of narrative or argument in their writing the Granular Modernists namely Joseph Conrad William Gerhardie Evelyn Waugh Henry Green T S Eliot W H Auden and Samuel Beckett experiment in certain of their works in finding the shapelessness of a moment in history that increasingly confidently called itself modern which was to call itself shapeless The project of Modernism in the late nineteenth and the first half of the twentieth century was to find a story to tell about an era full of beginnings The project of Granular Modernism was to find a way of turning the inchoateness of the modern moment into art Granular Modernism takes from the Naturalist movements of the nineteenth and early twentieth century its attentiveness to the process of mundane experiences like eating or waiting But where Naturalism sets out to offer a complete picture of a way of life Granular Modernism's eating and waiting fail to amount to anything more to paraphrase Evelyn Waugh The most they can hope for is a cumulative futility Frank Norris once described one of Stephen Crane's narrators as a locust in a grain elevator attempting to empty the silo by carrying off one grain at a time Norris is being dismissive But his image of pointless meticulous indefinite manoeuvre potentially defines the ambition of the Granular Modernists

Exotic Memories Chris Bongie, 1991-05-01 This book focuses on the literature of exoticism at the turn of the last century and how it foreshadows our own fin de siècle Earlier writers of exoticism had turned away from the West and its modernity rejecting the social changes caused by industrialization and displacing onto savage or primitive cultures their aspirations for political freedom By the turn of the century however European nations had reduced vast areas of the globe to colonial status this global exportation of Western cultural norms and economic systems had a critical effect on the literature of exoticism In concentrating on writers from the age of the New Imperialism 1880 1920 this book reveals an important contradiction at the heart of the exoticist impulse the very expansion that enabled European writers to go in search of exotic Others ensured the eventual disappearance of the exotic Turn of the century writers of exoticism thus give voice to a deep nostalgia both for the values supposedly lost to the West in its process of modernization and for those once exotic places in which they found with increasing disappointment not pristine innocence but merely the traces of their own culture The author concentrates on four writers Jules Verne Pierre Loti Victor Segalen and Joseph Conrad although he touches on a number of other writers and even painters like Paul Gauguin The works of these four writers

foreground attitudes and assumptions useful for understanding a wide array of phenomena an examination of these works shows how nostalgia for a cultural Other was built into the intellectual configuration of modernism throws light on the early history of anthropology and helps us understand features of our own cultural formation that are becoming increasingly important in today's global village Making an explicit link between turn of the century exoticism and the present day the book concludes with a critical assessment of Pier Paolo Pasolini's neo-exoticist attachment to a supposedly revolutionary Third World in his poetry and literary criticism The book's critical stance is noteworthy drawing its basic assumptions from pensiero debole the weak thought of the contemporary Italian philosopher Gianni Vattimo whose poststructuralist theories are only now becoming known in the United States Weak thought seeks to supersede outmoded metaphysical categories of thought not by replacing them with something new but by an elegaic recollective and rhetorical dwelling within those categories The author also makes creative use of narrative theory and draws on the recent new historicism reading literary texts to excellent effect against the historical events that made them possible
