**Report** Ohio. Dept. of Health, 1904      Space Regulation in Canada: Past, Present and Potential Aram Daniel Kerkonian, 2021-03-24 Space is no longer the domain of national space agencies Today a significant majority of space activities are carried out by non governmental entities resulting in the accelerated evolution of space technologies and their applications This operational shift from public to private does not mean however that governments are no longer relevant in this era of New Space On the contrary as the operational role of the state has diminished its regulatory role has grown correspondingly Acknowledging that the commercial landscape in space is an ever changing one this book explores how the Canadian government has adapted to the new commercial space landscape and whether it is prepared to fulfil its authorisation and supervision responsibilities as the regulator of Canada s space industry The fundamental research question posed therefore is whether Canada s regulatory framework is appropriate given the increasing commercialisation of space To best answer this question the book provides a doctrinal analysis of Canada s historical space policy and current space laws an empirical survey of the perspectives of those currently interacting with Canada s regulatory framework and a comparative exploration of how other jurisdictions oversee commercial space activities Motivated by legal moral and economic considerations the book recommends that Canada enact a comprehensive national space law and provides an annotated draft law for this purpose By doing so the book intends to spark a meaningful conversation on how Canada ought to fulfil its regulatory responsibilities a topic previously unaddressed in public and academic discourse      **The Heroes of Rimau** Lynette Silver, 1991-10-01 On September 11 1944 the British submarine Porpoise slipped quietly from Fremantle Harbour bound for Indonesia It was carrying the 23 Australian and British members of Operation Rimau who under the leadership of the remarkable Lieutenant Colonel Ivan Lyon of the Gordon Highlanders intended to repeat the successful Jaywick raid of 1943 by blowing up 60 ships in Japanese occupied Singapore Harbour 19 days later the preliminary part of the operation successfully completed the submarine commander bade farewell to the raiders at Pedjantan Island promising to return to pick them up in 38 days time A handful of Chinese and Malays and the conquering Japanese were the only people ever to see the 23 men again According to the scant official post war record the mission was an utter failure All of the party were captured or killed ten of them beheaded in Singapore only five weeks before the Japanese surrender in it was claimed a ceremonial execution The fate of eleven of the others remains officially unknown After a 31 year search Major Tom Hall with the assistance of writer Lynette Silver has overturned the official version and uncovered the truth Aided by thousands of Japanese and Allied documents and by the first hand accounts of several Indonesians and Malays sole witnesses to the events of 1944 they have established the fate of every member of the party and unravelled the story of The Heroes of Rimau a story that has for 45 years been all but lost distorted by hearsay and fantasy by military cover ups and conspiracy by official bungling ineptitude and apathy This book not only chronicles a feat of extraordinary daring in the face of overwhelming odds

a gripping tale of inspired courage self sacrifice and eventual tragedy it also exposes the appalling sequence of events which has until now resulted in the shameful suppression of the truth about one of the most amazing stories to emerge from World War II
