General Circulation. By: Charles Dickens, Illustrated By: C. (Clarkson Frederick) Stanfield (3 December 1793 - 18 May 1867).

Charles Dickens, C. Stanfield, 2017-12-03 *American Notes for General Circulation* is a travelogue by Charles Dickens detailing his trip to North America from January to June 1842. Whilst there he acted as a critical observer of North American society almost as if returning a status report on their progress. This can be compared to the style of his *Pictures from Italy* written four years later where he wrote far more like a tourist. His American journey was also an inspiration for his novel *Martin Chuzzlewit*. Having arrived in Boston he visited Lowell, New York and Philadelphia and travelled as far south as Richmond and as far west as St Louis and as far north as Quebec. The American city he liked best was Boston; the air was so clear, the houses were so bright and gay. The city is a beautiful one and cannot fail, I should imagine to impress all strangers very favourably. Further, it was close to the Perkins Institution and Massachusetts Asylum for the Blind where Dickens encountered Laura Bridgman, who impressed him greatly.

Clarkson Frederick Stanfield (RA) (3 December 1793 – 18 May 1867) was a prominent English marine painter. He is often, though inaccurately, called William Clarkson Stanfield. Charles John Huffam Dickens (7 February 1812 – 9 June 1870) was an English writer and social critic. He created some of the world's best-known fictional characters and is regarded by many as the greatest novelist of the Victorian era. His works enjoyed unprecedented popularity during his lifetime and, by the 20th century, critics and scholars had recognised him as a literary genius. His novels and short stories enjoy lasting popularity. Born in Portsmouth, Dickens left school to work in a factory when his father was incarcerated in a debtors' prison. Despite his lack of formal education, he edited a weekly journal for 20 years, wrote 15 novels, five novellas, hundreds of short stories and non-fiction articles, lectured and performed extensively, was an indefatigable letter writer, and campaigned vigorously for children's rights, education, and other social reforms. Dickens's literary success began with the 1836 serial publication of *The Pickwick Papers*. Within a few years he had become an international literary celebrity, famous for his humour, satire, and keen observation of character and society. His novels, most published in monthly or weekly installments, pioneered the serial publication of narrative fiction, which became the dominant Victorian mode for novel publication. The instalment format allowed Dickens to evaluate his audience's reaction and he often modified his plot and character development based on such feedback. For example, when his wife's chiropodist expressed distress at the way Miss Mowcher in *David Copperfield* seemed to reflect her disabilities, Dickens improved the character with positive features. His plots were carefully constructed, and he often wove elements from topical events into his narratives. Masses of the illiterate poor chipped in ha'pennies to have each new monthly episode read to them, opening up and inspiring a new class of readers. Dickens was regarded as the literary colossus of his age. His 1843 novella *A Christmas Carol* remains popular and continues to inspire adaptations in every artistic genre. *Oliver Twist* and *Great Expectations* are also frequently adapted, and like many of his novels, evoke images of early Victorian London. His 1859 novel *A Tale of Two Cities*, set in London and Paris, is his best-known work of historical fiction. Dickens has been praised by fellow writers from Leo Tolstoy to George Orwell and G. K.

Chesterton for his realism comedy prose style unique characterisations and social criticism On the other hand Oscar Wilde Henry James and Virginia Woolf complained of a lack of psychological depth loose writing and a vein of saccharine sentimentalism

Innocent Abroad Jerome Meckier,2021-12-14 In 1842 Victorian England's foremost novelist visited America naively expecting both a return to Eden and an ideal republic that would demonstrate progress as a natural law Instead Charles Dickens suffered a traumatic disappointment that darkened his vision of society and human nature for the remainder of his career His second tour in 1867-68 ostensibly more successful proved no antidote for the first Using new materials letters diaries and publishers records Jerome Meckier enumerates the reasons for the failure of Dickens's American tours During the first an informal conspiracy of newspaper editors frustrated his call for copyright protection More important he grew less equalitarian and more British daily a disillusioned novelist discovering his true self His American Notes 1842 and Martin Chuzzlewit 1843-44 repudiated travel books by Tocqueville Mrs Trollope and Martineau that had either viewed America as civilization's new dawn or voiced insufficient reservations Having plumbed man's tainted heart abroad the creator of Mr Pickwick saw everything more satirically at home he became a radical pessimist a dedicated reformer who nevertheless ruled out a utopian future Dickens's return visit the reading tour intended to make his fortune was an ironic second coming Thanks to poor planning and management ticket scalpers benefited as greatly as the much lionized performer Meckier argues that Dickens's business dealings with his American publishers were neither as smooth nor as lucrative as legend holds but that the novelist's health problems and his eagerness to bring along his mistress have been much exaggerated In fascinating counterpoint Meckier charts the ticket speculators systematic successes the ups and downs of Dickens's catarrh and the steady inroads he made into the heart of Annie Fields his American publisher's young wife This critical biographical study reshapes our view of the life and career of the giant of Victorian Literatures

American Notes for General Circulation Charles Dickens,2019-06-15 American Notes for General Circulation Charles Dickens 1812-1870 is best remembered today for the novels which offer a fantastic even grotesque panorama of Victorian life but he was a journalist before he became a novelist His travel writings have all the energy and urgency of journalism and these two volumes drawn from his experiences in a six month tour between January and June 1842 are no exception Dickens was already hugely popular with the American reading public and he was lionised wherever he went but the American Notes and the American scenes in Martin Chuzzlewit caused great controversy and were felt by many to insult the people and institutions of the United States Dickens's dedication of American Notes to those friends of mine in America who loving their country can bear the truth when it is told good humouredly and in a kind spirit suggests that he was not surprised by this reaction
