**Chasing Credentials and Mobility** Glenda Kruss, 2004 Publisher Description [A History of African Higher Education from Antiquity to the Present](#) Y. G-M Lulat, 2005-08-30 This book surveys the history of higher education principally universities in Africa Its geographical coverage encompasses the entire continent from Afro Arab Islamic Africa in the north to the former apartheid South Africa in the south and the historical time span ranges from the Egyptian civilization to the present Since little has been written on this topic particularly its historical component the work fills an important gap in the literature The book delineates the broad contours of the history of higher education in Africa in exceptional historical breadth voluminously documenting its subject in the text detailed footnotes and lengthy appendices Its methodological approach is that of critical historiography in which the location of the African continent in world history prior to the advent of European colonization is an important dimension In addition the book incorporates a historical survey of foreign assistance to the development of higher education in Africa in the post independence era with a substantive focus on the role of the World Bank It has been written with the following readership in mind those pursuing courses or doing research in African studies studies of the African Diaspora and comparative international education It should also be of interest to those concerned with developing policies on African higher education inside and outside Africa as well as those interested in African Islamic history the development of higher education in medieval Europe the contributions of African Americans to African higher education and such controversial approaches to the reading of African history as Eurocentrism and Afrocentrism **One World, Many Knowledges** Halvorsen, Tar, Vale, Peter, 2016-05-12 Various forms of academic co operation criss cross the modern university system in a bewildering number of ways from the open exchange of ideas and knowledge to the sharing of research results and frank discussions about research challenges Embedded in these scholarly networks is the question of whether a global template for the management of both higher education and national research organisations is necessary and if so must institutions slavishly follow the high flown language of the global knowledge society or risk falling behind in the ubiquitous university ranking system Or are there alternatives that can achieve a better more ethically inclined world Basing their observations on their own experiences an interesting mix of seasoned scholars and new voices from southern Africa and the Nordic region offer critical perspectives on issues of inter and cross regional academic co operation Several of the chapters also touch on the evolution of the higher education sector in the two regions An absorbing and intelligent study this book will be invaluable for anyone interested in the strategies scholars are using to adapt to the interconnectedness of the modern world It offers fresh insights into how academics are attempting to protect the spaces in which they can freely and openly debate the challenges they face while aiming to transform higher education and foster scholarly collaboration The Southern African Nordic Centre SANORD is a partnership of higher education institutions from Denmark Finland Iceland Norway Sweden Botswana Namibia Malawi South Africa Zambia and Zimbabwe SANORD s primary aim is to promote

multilateral research co operation on matters of importance to the development of both regions Our activities are based on the values of democracy equity and mutually beneficial academic engagement

*The New Black Middle Class in South Africa* Roger Southall,2016 Provides the most comprehensive account since the early 1960s of South Africa s black middle class 2016 CHOICE Outstanding Academic Title The rise of the black middle class is one of the most visible aspects of post apartheid society in South Africa Yet while it has been a major actor in the country s democratic reshaping analysis of its role has been all but lacking Rather the image presented by the media has been of black diamonds consumers of the products of advanced industrial economies and of corrupt tenderpreneurs who use their political connections to obtain contracts This book seeks to complicate that picture with a much needed analysis that recounts its historical development in colonial society prior to 1994 before examining the size shape and structure of the new black middle class in contemporary South Africa and its relation to its counterparts in the Global South Roger Southall is Professor Emeritus in Sociology University of the Witwatersrand Southern Africa South Africa Namibia Botswana Lesotho Zimbabwe and Swaziland Jacana

*The Reconstruction Justice of Salmon P. Chase* Harold Melvin Hyman,1997 The demise of the Confederacy left a legacy of legal arrangements that raised fundamental and vexing questions regarding the legal rights and status of former slaves and the status of former Confederate states As Harold Hyman shows few individuals had greater impact on resolving these difficult questions than Salmon P Chase chief justice of the United States Supreme Court from 1865 to 1873 Hyman argues that in two cases In Re Turner 1867 and Texas v White 1869 Chase combined his abolitionist philosophy with an activist jurisprudence to help dismantle once and for all the deposed machineries of slavery and the Confederacy In these cases Chase sought to consolidate the gains of the Civil War era while demonstrating that the war had both preserved the precious core characteristics of the federal union of states and fundamentally improved the nature of both private and public law In Re Turner was a private law case decided at the federal circuit level It involved a black woman s claim that she a recent slave was being held in involuntary servitude Elizabeth Turner s mother had apprenticed Elizabeth to their former master who had not abided by his contractual obligations to provide Elizabeth with training and compensation substantively keeping her in slavery Chase s decision which relied upon due process and equal protection implications in the thirteenth amendment and 1866 Civil Rights Act confirmed the rights of emancipated slaves to bargain and contract with employers on a parity with white workers Texas v White was a public law case decided in the Supreme Court It revolved around the issue of whether the holders of U S bonds seized and sold by the Confederate state of Texas could demand payment after the war from that state s newly reconstructed government In effect Chase and his associate justices were asked to determine the legality of actions

committed by all former Confederate states and thus to define what constituted a state Chase's opinion reaffirmed the Union's permanence and that of the constituent states in the federal union and the states duty to respect the legal rights and obligations of all citizens because states were people as well as acreages and institutions Hyman's exemplary analysis of these cases reveals how their political legal and constitutional aspects were so inextricably interwoven They secured for Chase a rostrum for both moral and legal reform from which he asserted his strong views on the fundamental rights of individuals and states in an era of sporadically increasing federal power Hyman's study provides a much needed reevaluation of those cases both in the context of Chase's life and in terms of their mark on history

ICT Skills at the Intermediate Level in South Africa Salim Akoojee, Fabian Arends, Joan Roodt, 2007 Both the government and the private sector have recognised the invaluable role that information and communication technology ICT plays in responding to national socio economic imperatives The importance of ICT skills to the economic social and political trajectory in a globalised context cannot therefore be over emphasised The potential of and limitations to intermediate level ICT skills in so far as they contribute to South Africa's human resource capacity is considered essential to the current form and future trajectory of the country's development This research monograph examines the supply of and demand for intermediate level ICT skills in South Africa through a study of selected training providers giving insight into key elements of demand People interested in current developments in the ICT training field as well as legislators and regulators of the industry will find this research monograph essential reading
