Cognitive Therapy In Practice A Case Formulation Approach:

The Case Formulation Approach to Cognitive-Behavior Therapy Jacqueline B. Persons, 2008-08-14 This book addresses a critical challenge in evidence based psychotherapy how to use empirically supported therapies ESTs in real world clinical contexts The author explains the basic theories of cognition learning and emotion that underlie available ESTs and shows how the theories also guide systematic case formulation By crafting a sound formulation and continually refining and monitoring it as treatment progresses the therapist can smoothly shift theoretical gears and weave together elements of different ESTs to meet the needs of individual patients who typically present with multiple problems Hands on tools reproducibles and many concrete examples are included
