## Collected Fictions:

The Rigor of Angels William Egginton, 2025-03-04 A NEW YORK TIMES AND NEW YORKER BEST BOOK OF THE YEAR A poet a physicist and a philosopher explored the greatest enigmas in the universe the nature of free will the strange fabric of the cosmos the true limits of the mind and each in their own way uncovered a revelatory truth about our place in the world A mind expanding book Elegantly written The New York Times A remarkable synthesis of the thoughts ideas and discoveries of three of the greatest minds that our species has produced John Banville The Wall Street Journal Argentine poet Jorge Luis Borges was madly in love when his life was shattered by painful heartbreak But the breakdown that followed illuminated an incontrovertible truth that love is necessarily imbued with loss that the one doesn't exist without the other German physicist Werner Heisenberg was fighting with the scientific establishment on the meaning of the quantum realm's absurdity when he had his own epiphany that there is no such thing as a complete perfect description of reality Prussian philosopher Immanuel Kant pushed the assumptions of human reason to their mind bending conclusions but emerged with an idea that crowned a towering philosophical system that the human mind has fundamental limits and those limits undergird both our greatest achievements as well as our missteps Through fiction science and philosophy the work of these three thinkers coalesced around the powerful haunting fact that there is an irreconcilable difference between reality out there and reality as we experience it Out of this profound truth comes a multitude of galvanizing ideas the notion of selfhood free will and purpose in human life the roots of morality aesthetics and reason and the origins and nature of the cosmos itself As each of these thinkers shows every one of us has a fundamentally incomplete picture of the world But this is to be expected Only as mortal finite beings are we able to experience the world in all its richness and breathtaking majesty We are stranded in a gulf of vast extremes between the astronomical and the quantum an abyss of freedom and absolute determinism and it is in that center where we must make our home A soaring and lucid reflection on the lives and work of Borges Heisenberg and Kant The Rigor of Angels movingly demonstrates that the mysteries of our place in the world may always loom over us not as a threat but as a reminder of our humble humanity

**Scattershot** Amy Eggert, 2015-03-12

This bomb ass brilliant book is without question as serious as a heart attack The storyworld of REAL survival Amy Eggert is the only person I know brave enough badd enuff to go there Aiming to challenge and more than likely shatter widespread myth and that which has been cataclysmic in our society like no other fiction I've read Scattershot is the true language of trauma It never stops talking to you getting into your head in ways that you'll never forget Far reaching Scattershot will utterly blow you away It's that good Written with a compressed precision the short stories and prose poems that make up Scattershot are like the random yet deadly pattern produced by a haphazardly fired shotgun painful contingent indelible Equally poised between quiet empathy and unflinching candor these are snapshots of everyday life in a neoliberal America that has given up on its social contract and the promise of the better life What remains is a haunted landscape of broken

dreams broken bodies and broken minds Amy Eggert is a poet of our diminished world and Scattershot is necessary reading Amy Eggert's Scattershot must be what Cathy Caruth meant by the story of a wound that cries out Only here are many wounds growing mouths yearning to be heard the grandfather in the assisted living facility crying this isn't home the four year old son flashing back to his father's hallway suicide a woman who pines for ghost babies lost in trees These stories in their unflinching exquisiteness are a live nerve twitching the body at its limits demanding witness Eggert's debut collection is the body almost choking on its own vulnerable song Collected Stories Janette Turner Hospital, 2001 This collection brings together in one distinguished volume a range of stories written over twenty five years by this internationally acclaimed author Janette Turner Hospital's sensuous prose reveals the inner lives of a fascinating gallery of characters caught between cultures Some cross borders of class gender and race dislocated in unfamiliar and unpredictable physical worlds others cross borders between the past and the present blurring memory and perception in moments of crisis and illumination
