Cognitive Processes Lyle Eugene Bourne,Roger L. Dominowski,Elizabeth F. Loftus,1979 **An Externalist Approach to Epistemic Responsibility** Andrea Robitzsch,2019-06-21 This monograph provides a novel reliabilist approach to epistemic responsibility assessment The author presents unique arguments for the epistemic significance of belief influencing actions and omissions She grounds her proposal in indirect doxastic control The book consists of four chapters The first two chapters look at the different ways in which an agent might control the revision retention or rejection of her beliefs They provide a systematic overview of the different approaches to doxastic control and contain a thorough study of reasons responsive approaches to direct and indirect doxastic control The third chapter provides a reliabilist approach to epistemic responsibility assessment which is based on indirect doxastic control In the fourth chapter the author examines epistemic peer disagreement and applies her

reliabilist approach to epistemic responsibility assessment to this debate She argues that the epistemic significance of peer disagreement does not only rely on the way in which an agent should revise her belief in the face of disagreement it also relies on the way in which an agent should act This book deals with questions of meliorative epistemology in general and with questions concerning doxastic responsibility and epistemic responsibility assessment in particular It will appeal to graduate students and researchers with an interest in epistemology

Cognitive Processes in Writing Lee W. Gregg, Erwin R. Steinberg, 2016-07-15 Originally published in 1980 this title began as a set of questions posed by faculty on the campus of Carnegie Mellon University What do we know about how people write What do we need to know to help people write better This resulted in an interdisciplinary symposium on Cognitive Processes in Writing and subsequently this book which includes the papers from the symposium as well as further contributions from several of the attendees It presents a good picture of what research had shown about how people write of what people were trying to find out at the time and what needed to be done

The Twenty-First Century Mechanistic Theory of Human Cognition Diego Azevedo Leite, 2020-11-30 This book presents a theoretical critical appraisal of the Mechanistic Theory of Human Cognition MTHC which is one of the most popular major theories in the contemporary field of cognitive science It analyses and evaluates whether MTHC provides a unifying account of human cognition and its explanation The book presents a systematic investigation of the internal and external consistency of the theory as well as a systematic comparison with other contemporary major theories in the field In this sense it provides a fresh look at more recent major theoretical debates in this area of scientific research and a rigorous analysis of one of its most central major theories Rigorous theoretical work is integrated with objective consideration of relevant empirical evidence making the discussions robust and clear As a result the book shows that MTHC provides a significant theoretical contribution for the field of cognitive science The content is useful for those interested in theoretical and empirical issues concerning major theories in the contemporary field of cognitive science
