Christianity Firsts:

Christianity: A Brief History Michael D. Robinson, 2019-06-14 Christianity is one of the world's great religions with more than two thousand years of history and over two billion adherents worldwide. But what is Christianity? Where did it come from? How did it develop to its current forms? What doctrines do Christians affirm? What ethical norms do they endorse? What relationships between church and state do they champion and why? What changes have transpired for the faith over the centuries? And what new challenges does Christianity face in the contemporary world? These and other questions are addressed in Michael Robinson's *Christianity: A Brief History*. After a concise description of the social, political, and religious world of first-century Palestine, the text quickly examines the Jesus of history and tradition, including Jesus' impact upon his first-century followers. The narrative then moves to describe the expansions and developments of Christianity through the ancient, medieval, modern, and contemporary eras. Along the way, readers learn of the varied beliefs, mores, rituals, struggles, and triumphs of the faith, as well as of the spiritual heights and moral blunders of its people. Robinson's intention is to introduce Christianity through its story and through those who lived it.

The Mission and Expansion of Christianity in the First Three Centuries Adolf von Harnack, 1908

The First One Hundred Years of Christianity Udo Schnelle, 2020-06-30 Beginning as a marginal group in Galilee, the movement initiated by Jesus of Nazareth became a world religion within 100 years. Why, among various religious movements, did Christianity succeed? This major work by internationally renowned scholar Udo Schnelle traces the historical, cultural, and theological influences and developments of the early years of the Christian movement. It shows how Christianity provided an intellectual framework, a literature, and socialization among converts that led to its enduring influence.

Senior New Testament scholar James Thompson offers a clear, fluent English translation of the successful German edition: *The History of the Christian Religion and Church* August Neander, 1853

General History of the Christian Religion and Church August Neander, 1872

Christian History Alister E. McGrath, 2013-03-04 A major new introduction to the global history of Christianity, written by one of the world's leading theologians and author of numerous bestselling textbooks. Provides a truly global review by exploring the development of Christianity and related issues in Asia, Latin America, and Africa, and not just focusing on Western concerns. Spanning more than two millennia and combining elements of theology, history, and culture, it traces the development of all three branches of Christianity: Catholic, Protestant, and Orthodox, providing context to Christianity's origins and its links to Judaism. Looks beyond denominational history at Christianity's impact on individuals, society, politics, and intellectual thought, as well as on art, architecture, and the natural sciences. Combines McGrath's acute historical sensibility with formidable organizational skill, breaking the material down into accessible, self-contained historical periods. Offers an accessible and student-oriented text, assuming little or no advance theological or historical knowledge on the part of the reader.

A History of the Christian Church During the First Six Centuries Samuel Cheetham, 1894

Demonstrates how the Christian community received and forged its identity from its development of the Bible to the present day. History of Christian Dogma Ferdinand Christian Baur, 2014
History of Christian Dogma is a translation of Ferdinand Christian Baur's *Lehrbuch der christlichen Dogmengeschichte* (second edition, 1858). The *Lehrbuch*, which Baur himself prepared, summarizes in 400 pages his lectures on the history of Christian dogma, published posthumously in four volumes. Baur, professor of theology at the University of Tübingen from 1826 to 1860, brilliantly applied Hegelian categories to his historical studies in New Testament church history and history of

Christian dogma According to Baur Dogma is the rational articulation of the Christian idea or principle the idea that God and humanity are united through Christ and reconciled in the faith of the spiritual community Following an introduction on the concept and history of the history of dogma the Lehrbuch treats three main periods the dogma of the ancient church or the substantiality of dogma the dogma of the Middle Ages or the dogma of inwardly reflected consciousness and dogma in the modern era or dogma and free self consciousness The entire history is a progression in the self articulation of dogma through conflict and resolution moving gradually from objective to subjective forms and to the mediation of subject and object by the philosophers and theologians of the early nineteenth century The detailed analyses provide a wealth of information on individual thinkers and doctrines that is still relevant today
