Contested Eden:

Contested Eden Ramón A. Gutiérrez, Richard J. Orsi, 1998-03-31 Celebrating the 150th birthday of the state of California offers the opportunity to reexamine the founding of modern California from the earliest days through the Gold Rush and up to 1870 In this four volume series published in association with the California Historical Society leading scholars offer a contemporary perspective on such issues as the evolution of a distinctive California culture the interaction between people and the natural environment the ways in which California's development affected the United States and the world and the legacy of cultural and ethnic diversity in the state California before the Gold Rush the first California Sesquicentennial volume combines topics of interest to scholars and general readers alike The essays investigate traditional historical subjects and also explore such areas as environmental science women's history and Indian history Authored by distinguished scholars in their respective fields each essay contains excellent summary bibliographies of leading works on pertinent topics This volume also features an extraordinary full color photographic essay on the artistic record of the conquest of California by Europeans as well as over seventy black and white photographs some never before published California History, Contested Eden; California Before the Gold Rush, **A Companion to California History** William Devereell, David Iglar, 2014-01-28 This volume of original essays by leading scholars is an innovative thorough introduction to the history and culture of California Includes 30 essays by leading scholars in the field Essays range widely across perspectives including political social economic and environmental history Essays with similar approaches are paired and grouped to work as individual pieces and as companions to each other throughout the text Produced in association with the Huntington USC Institute on California and the West Franciscan Frontiersmen Robert A. Kittle, 2017-05-18 Pious and scholarly the Franciscan friars Pedro Font Juan Cresp and Francisco Garcés may at first seem improbable heroes Beginning in Spain their adventures encompassed the remote Sierra Gorda highlands of Mexico the deserts of the American Southwest and coastal California Each man's journey played an important role in Spain's eighteenth century conquest of the Pacific coast but today their names and deeds are little known Drawing on the diaries and correspondence of Font Cresp and Garcés as well as his own exhaustive field research Robert A Kittle has woven a seamless narrative detailing the friars striking accomplishments Starting with a harrowing transatlantic voyage all three traveled through uncharted lands and found themselves beset by raiding Indians marauding bears starvation and scurvy Along the way they made invaluable notes on indigenous peoples flora and fauna and prominent eighteenth century European colonial figures Font the least celebrated of the three recorded the daily events of the 1775-76 colonizing expedition of Juan Bautista de Anza while serving as its chaplain Font's legacy includes some of the earliest accurate maps of California between San Diego Bay and San Francisco Bay Garcés an itinerant missionary developed close relationships with Indians in Sonora and California He learned their languages and lived and traveled with them usually as the only white man and brokered dozens of peace agreements before he was killed in a Yuma

uprising Cresp who traveled up the California coast with Father Jun pero Serra kept meticulous journals of an expedition to reconnoiter the San Francisco Bay area the Sacramento and San Joaquin Rivers and the northern reaches of California s central valley This enthralling narrative elevates these Spanish friars to their rightful place in the chronicle of American exploration It brings their exploits out of the shadow of the American Revolution and Lewis Clark expedition while also illuminating encounters between European explorers and missionaries and the American Indians who had occupied the Pacific coast for millennia

American Colonies Alan Taylor,2002-07-30 A multicultural multinational history of colonial America from the Pulitzer Prize winning author of *The Internal Enemy* and *American Revolutions* In the first volume in the Penguin History of the United States edited by Eric Foner Alan Taylor challenges the traditional story of colonial history by examining the many cultures that helped make America from the native inhabitants from millennia past through the decades of Western colonization and conquest and across the entire continent all the way to the Pacific coast Transcending the usual Anglocentric version of our colonial past he recovers the importance of Native American tribes African slaves and the rival empires of France Spain the Netherlands and even Russia in the colonization of North America Moving beyond the Atlantic seaboard to examine the entire continent *American Colonies* reveals a pivotal period in the global interaction of peoples cultures plants animals and microbes In a vivid narrative Taylor draws upon cutting edge scholarship to create a timely picture of the colonial world characterized by an interplay of freedom and slavery opportunity and loss Formidable provokes us to contemplate the ways in which residents of North America have dealt with diversity *The New York Times Book Review*

Juana Briones of Nineteenth-century California Jeanne Farr McDonnell,2008-09-15 Juana Briones de Miranda lived an unusual life which is wonderfully recounted in this highly accessible biography She was one of the first residents of what is now San Francisco then named Yerba Buena Good Herb reportedly after a medicinal tea she concocted She was among the few women in California of her time to own property in her own name and she proved to be a skilled farmer rancher and businesswoman In retelling her life story Jeanne Farr McDonnell also retells the history of nineteenth century California from the unique perspective of this surprising woman Juana Briones was born in 1802 and spent her early youth in Santa Cruz a community of retired soldiers who had helped found Spanish California Native Americans and settlers from Mexico In 1820 she married a cavalryman at the San Francisco Presidio Apolinario Miranda She raised her seven surviving sons and daughters and adopted an orphaned Native American girl Drawing on knowledge she gained about herbal medicine and other cures from her family and Native Americans she became a highly respected curandera or healer Juana set up a second home and dairy at the base of then Loma Alta now Telegraph Hill the first house in that area After gaining a church sanctioned separation from her abusive husband she expanded her farming and cattle business in 1844 by purchasing a 4

400 acre ranch where she built her house located in the present city of Palo Alto She successfully managed her extensive business interests until her death in 1889 Juana Briones witnessed extraordinary changes during her lifetime In this fascinating book readers will see California s history in a new and revelatory light Contested-election Case of Robert Lowry Vs.
