## **Contested Identities:**

*Contested Identities* Roger Nicholson, Gertrud Szamosi, Claudia Marquis, 2015-09-04 This volume brings together essays that individually and collectively address the force of the literary text with regard to problematic identities They work out of shared concerns with literary representations of this issue in different regions nations and communities that often prove divided they pursue questions related to textual identity where the literary text itself is contested internally or in its generic and historical relations In sum these studies actively test identity as social or literary concept discovering in difference the very condition of a useful if paradoxical sense of personal or textual coherence What happens to us when we move between different cultures or different societies defined in geographical or historical terms What happens to texts and textual practices in these same circumstances What happens to us when we are obliged to adapt to a new social order Homi Bhabha speaks of cultural difference as calling into play what he calls cultural translation What happens to identity the narrative that fashions a continued sense of self in this case Difference raised to alterity demands that we accord functional and philosophical value not just to other aspects but also to the aspect of the other At the level of personal or textual agency however difference contests and threatens to subvert stable selfhood composing a scene of conflict Even so it often proves to be instrumental in re charging a sense of the cultural valence of the literary text not least by virtue of its political implications In this regard the border where difference materialises has considerable presence in contributions to this volume prompting appreciation of texts that work on or travel across such borders however haphazardly and dangerously but also those that compose border textualities *Contested Identities in American Writing* Wilfried Raussert, 2026-01-27

**Contested Identities: Racial Indeterminacy and Law in the American Novel, 1900-1942** Rebecca S Nisetich, 2014 In Contested Identities I chart the path of the legal and literary discourses on racial identity codified by the 1896 Plessy v Ferguson decision and culturally ascendant in the early decades of the twentieth century In this period a group of American writers produced fiction that implicitly challenged this legal and cultural discourse My project explores the literary productions of Charles W Chesnutt Nella Larsen and William Faulkner three writers who undermine question and critique the legal and social practices that seek to define and contain individual identities in binary terms Specifically in Contested Identities I explore why Chesnutt Larsen and Faulkner create characters whose identities are not clearly articulated defined or knowable and why they intentionally position these figures in relation to the law At the center of each of these texts there remains a void where racial information might be clearly articulated defined or corroborated but isn't This enables Chesnutt Larsen and Faulkner to underscore an unresolved tension between what must be true and what cannot be known a dynamic which throws into relief the maddening complexity of human experience in opposition to cut and dry legal and popular definitions of race which operate under the assumption that blood proportions are easily known and that specific blood proportions determine identity I argue that it is racial indeterminacy that animates these writers explorations of identity and that it is the fundamental theme that binds these characters and texts together The law treats race as a matter of identity my dissertation argues that the law is instead a crucial factor in the formation of the racial identity of individual characters

*Contested Identities Split Loyalties* Val Karanxha,2020-09-26 The core claim of this book is that Puerto Rico is the outcome of distinct imperial policies that shaped the identity The US takeover in 1898 became a critical point whether to preserve the imperial identity or to embrace the North American identity and culture In their effort to maintain their control over Puerto Rico the local elites embraced the nation state s idea to block attempts of assimilation and invent a Puerto Rican national identity This political objective became divisive and led to clashes between the clusters of the elite competing for power One cluster of the Puerto Rican elites supported independence from the United States The other cluster promoted cultural nationalism within the United States Hence in their political discourse for both clusters the other was the United States
