**Terrorism and Temporality in the Works of Thomas Pynchon and Don DeLillo** James Gourley, 2013-06-06 Terrorism and Temporality in the Works of Thomas Pynchon and Don DeLillo starts from a simple premise that the events of the 11th of September 2001 must have had a major effect on two New York residents and two of the seminal authors of American letters Pynchon and DeLillo By examining implicit and explicit allusion to these events in their work it becomes apparent that both consider 9 11 a crucial event and that it has profoundly impacted their work From this important point the volume focuses on the major change identifiable in both authors work a change in the perception and conception of time This is not however a simple change after 2001 It allows at the same time a re examination of both authors work and the acknowledgment of time as a crucial concept to both authors throughout their careers Engaging with several theories of time and their reiteration and examination in both authors work this volume contributes both to the understanding of literary time and to the work of Pynchon and DeLillo

*The Invention of Terrorism in Europe, Russia, and the United States* Carola Dietze, 2021-07-27 Terrorism s roots in Western Europe and the USA This book examines key cases of terrorist violence to show that the invention of terrorism was linked to the birth of modernity in Europe Russia and the United States rather than to Tsarist despotism in 19th century Russia or to Islam sects in Medieval Persia Combining a highly readable historical narrative with analysis of larger issues in social and political history the author argues that the dissemination of news about terrorist violence was at the core of a strategy that aimed for political impact on rulers as well as the general public Dietze s lucid account also reveals how the spread of knowledge about terrorist acts was from the outset a transatlantic process Two incidents form the book s centerpiece The first is the failed attempt to assassinate French Emperor Napol on III by Felice Orsini in 1858 in an act intended to achieve Italian unity and democracy The second case study offers a new reading of John Brown s raid on the arsenal at Harpers Ferry in 1859 as a decisive moment in the abolitionist struggle and occurrences leading to the American Civil War Three further examples from Germany Russia and the US are scrutinized to trace the development of the tactic by first imitators With their acts of violence the invention of terrorism was completed Terrorism has existed as a tactic since then and has essentially only been adapted through the use of new technologies and methods
